## RUTH ELDER RETURNS HOME

### ROBBERS FLEE AFTER FORCING WAY INTO TWO GAS STATIONS

John Amos and Litten Places are Ransacked.

### CANDY IS STOLEN Two Men Escape in Auto as Police Pursue Them.

Robbers last night broke into two West End gasoline stations, but obtained only two boxes of candy for their efforts. Enter Through Windows. Patrolmen Herman Roth and Norman McFarland, who investigated the robbery at the John Amos station, West Eighth street, near Patterson Field, pursued two men who entered the place at midnight after forcing open a rear window. The burglars escaped in an automobile. No loot was obtained by robbers who ransacked the Litten Motor Sales company station, also in West Eighth street. Patrolman Leslie Curran, investigating today, reported that entrance was gained through a rear window.

### Today Voting, Here and There. A Fiske-Ecker Suggestion. For Emperor, Gen. Chang. Big and Thorough.

THE vote in New York gave the city power to lease land for houses to be rented at reasonable prices, and also allowed the city to borrow \$300,000,000 to build needed subways. This is along the line of human intelligence. The vote was a victory for Gov. Smith and Mayor Walker.

IN Detroit, the candidate for mayor who promised he would save the people from bad whisky by letting them get good whisky, was defeated.

PHILADELPHIA, electing Senator Vare's candidates for mayor and council by a big majority, indicates that Pennsylvania wants Mr. Vare in the senate.

JAMES ROLPH, Jr., is elected mayor of San Francisco for the fifth term of four years. Those that have seen San Francisco's parks and other proofs of efficiency are not surprised.

LIFE insurance is big and intelligent business. This country's policies amount now to ninety thousand millions of dollars. The Metropolitan Life Insurance company spends money for advertising information on health, a wise and public-spirited move. Health is the thing that makes life insurance profitable. Death means loss.

THE twenty-five largest life insurance companies own nearly five billions of bonds. Those that, like the Metropolitan, specialize in good health advice, warn you to be careful of your teeth.

TEETH in the United States grind up more than thirty-seven million dollars worth of food a day and the good effects of food depend on the grinding.

MR. HALEY FISKE, Mr. Ecker and other wise men of the Metropolitan didn't consider the advisability of establishing scientific institutes of dentistry to look after their policyholders' teeth at cost, plus a reasonable profit. The company that built excellent apartment houses to rent for \$9 a room might also build dentist chairs to rent for three or four dollars an hour.

CHANG-TSO-LIN, fighting general of North China, wants to be crowned emperor and has wise men investigating the proper ceremonies.

One really great fighter, greatest perhaps that ever lived, Genghis Khan, made himself lord of China, didn't condescend to take the throne at all, and never went back inside the Chinese wall. He sent someone else to do the ruling for him.

GEN. CHENG, who makes his visits with a machine gun mounted on his private automobile, was formerly a

### LEGION LEADER SEES GREED AND FEAR AS CAUSES OF WAR

INDIANAPOLIS, Ind., Nov. 11.—Asserting that the greatest causes of war were greed and fear, National Commander Edward E. Spafford of the American Legion, in an Armistice Day message today, urged the passage of universal draft laws, maintenance of the naval five-five-three ratio and enforcement of the National Defense Act of 1920.

### WHISTLES MARK TRUCE HOUR

### Church Bells Ring As City Pays Homage To Dead of World War

Two-minute Period of Silence Observed at 11 O'clock in Stores, Factories and Offices on Ninth Anniversary of Armistice—Banquets Tonight.

Flag-bedecked East Liverpool paid homage to the soldier and sailor dead of the World War today—the ninth anniversary of Armistice Day. All business activities and school work were suspended for a two-minute period of silence at 11 o'clock—the hour when hostilities ceased in Europe on November 11, 1918—as industrial workers, clerks and public and parochial school children offered a prayer for the men who made the supreme sacrifice in the great holocaust.

Church bells were rung and pottery whistles blown on the hour. Exercises in Schools. Patriotic exercises were held in the high school, elementary buildings and St. Aloisius parochial school during the forenoon. Rev. Dr. W. O. Hawkins, of the First Methodist Episcopal church, and Rev. R. R. Johnson, of the First Church of Christ, spoke in the Sixth street building. Dr. Hawkins also made an address in the high school at 1 o'clock this afternoon.

Armistice Day program as outlined by the Chamber of Commerce was given at 11 o'clock in the parochial school. This was followed by a period of prayer for those who made the supreme sacrifice in the World War. The American Legion, Sons of St. George, Friendship lodge, Star of Bethlehem and the Elks' lodge will feature Armistice Day programs tonight.

Rev. E. J. Gracey, pastor of the Immaculate Conception Catholic church, Wellsville, who is national chaplain of the "Forty and Eight," the Legion's social order, will speak at two banquets tonight—the Legion celebration in Larkins' annex and the Sons of St. George dinner in the parish house of St. Stephen's Episcopal church. Rev. R. K. Caulk, rector, will also speak at the latter affair, which is expected to be attended by 250 guests, including a delegation from Youngstown. Attorney Ben L. Bennett will be toastmaster.

Besides Father Gracey, Attorneys George E. Davidson, Blaine H. Cochran and Walter S. Stevenson and Joseph H. Smith will make addresses at the war veterans' dinner.

Lisbon Celebrates. A patriotic program will mark tonight's meeting of the Star of Bethlehem. Refreshments will be served following the exercises.

Seventy-seven inmates of the McCullough-Jefferson County Children's home were guests of the Elks' lodge. The visitors attended a theatre party this afternoon. A dinner and entertainment are slated for tonight.

Two aerial bombs exploded at midnight and six more at 8 o'clock this morning ushered in the Armistice Day celebration in Lisbon, which was crowded with visitors during the forenoon and afternoon. Fire sirens, church bells and factory whistles greeted the truce hour in the county seat. The day's program included races, band concert, gun salute and military parade under the auspices of John Welsh post, American Legion, during the morning; a football game in the afternoon and mardi gras and military parade at 7 o'clock tonight.

Ada Manufacturer Drops Dead. CLEVELAND, Nov. 11.—Ernest Chapman, 61, president of the Ada Knitting mills, Ada, O., dropped dead of heart trouble while making a business call here Thursday.

### SIX SPECIAL ISSUES DEFEATED AND 16 APPROVED BY CITY AND SCHOOL DISTRICTS, COUNT SHOWS

Six of the 22 special issues, including city and school district tax levies and bond proposals, were defeated in Tuesday's election, the Columbiana deputy state supervisors of elections announced today. One of the proposals approved was the plan to erect and furnish a school building at Salisbury in Yellow Creek township. The McLean Fire Brick company, proposed to contribute \$5,500 toward the erection of a new school providing the township would provide the balance. A proposed bond issue of \$5,500 carried, 151 to 57.

According to records filed today in the office of County Auditor Elmer E. Walker, fate of the respective proposals was:

East Liverpool—One-mill tax levy for safety department carried, 2,349 to 2,249. Salem—Bond issue for disposal plant carried, 1,944 to 625; Reilly Field issue lost, 1,434 to 1,200; 3-mill levy carried, 1,749 to 954; \$75,000 bond issue for new school building carried, 1,749 to 954. Wellsville—Seventeenth street sewer bond issue lost, 1,981 to 923; half-mill levy for light pur-

poses, not to exceed five years carried, 1,256 to 815. Fairfield Township—3-mill school levy for five years carried, 363 to 109. Madison Township—School District No. 2—Two-mill school levy for five years carried, 45 to 42. Middleton Township—Three-mill school levy for five years carried, 129 to 107. Perry Township—Five-mill school levy for five years carried, 137 to 65. St. Clair Township—Three-mill school levy for three years carried, 165 to 65.

### GERMAN FLAG UNFURLED IN U. S. CAPITAL

Former Enemy Takes Cognizance of Armistice Day. HONOR WAR DEAD Proclaims Thanksgiving for Peace of World.

A bond of devotion to the memory of the allied war dead drew nearly the whole world together in common homage today—the ninth anniversary of the armistice that ended hostilities in the great war. At Washington President Coolidge went to Arlington cemetery and placed a wreath upon the tomb of the unknown soldier. Canadian soldiers took part in the Washington observance.

In New York there was a one-minute tribute at 11 o'clock, when all business activities of the city were suspended. Soldiers, sailors, civilians and delegations from patriotic organizations participated in a memorial service at the Eternal Light in Madison square.

In London, Paris, Rome and Brussels wreaths were placed upon the monuments of the unknown warriors, amid impressive ceremonies. Standing with veterans, who had fought in the war, the highest officers of the various governments paid tribute to the memory of the dead.

At Compiegne, France, a great memorial shelter erected above a replica of the railway car in which the armistice was signed, was dedicated. This car stands on the spot where the historic document was signed.

Germany Pays Homage. WASHINGTON, Nov. 11.—The black, red and gold flag of the German republic flew at full staff today above the German embassy here. Likewise the flags of the Kingdom of Hungary and the Republic of Austria.

### T. F. CAYWOOD, AGED 82, DIES

Funeral Services to be Held Monday Afternoon.

Thomas F. Caywood, 82, died today in the home of his son, Lester R. Caywood, Garner avenue, after a 15 months' illness. Funeral services will be held in the home at 1:30 Monday afternoon, in charge of Rev. A. E. Walker, pastor of the Emmanuel Presbyterian church. Burial will be made in Riverview cemetery. Friends may view the body Sunday afternoon and evening.

### RUTH RETURNS IN PARISIAN GARB

New York bade Godspeed to Ruth Elder, the aviatrix, clad in knickerbockers and sweaters. It welcomes her home as a young woman of fashion, dressed in the smartest raiment Paris has to offer. Above, Ruth Elder, in her flying togs and in one of the costumes she purchased in Paris.

### Ohio Honors Memory Of Warren G. Harding

FORMER KAISER STILL HOPEFUL. DOORN, Holland, Nov. 11.—Armistice day, which concludes nine years of European peace, finds former German kaiser still clinging to the slender hope that the Hohenzollerns may some day rule again in all their glory over Germany, according to reports among persons who have come in contact with the one-time war lord.

The former kaiser has not been well and those who have seen him recently say that his once soldierly form is bent with age and worry.

### "COXEY'S ARMY" RANKS THINNING

LONDON, Nov. 11.—Their number greatly reduced by fatigue the miners comprising Cook's army is marching on London to attract attention to the suffering unemployed, left Bath today for Chippenham. More than 20 marchers gave up due to strained muscles and fatigue. Several others dropped out of the ranks when they found employment in Bath.

### State Council of Republican Women Visits Tomb of Late President in Marion on Armistice Day.

MARION, O., Nov. 11.—Impressive ceremonies to the memory of Warren G. Harding, late president of the United States, at the Harding tomb, featured the Armistice Day program here this afternoon. The program was arranged by the Ohio Council of Republican Women, in session at Columbus, and about 1,000 people made the trip here in automobiles. Carrington T. Marshall, chief justice of the Ohio supreme court, delivered the principal address, and a wreath was placed on the Harding tomb by Mrs. Wilma Sinclair Levan of Steubenville and Mrs. Charles H. Sablin of New York. The flag service was conducted by W. N. Harder of Marion. Justice Marshall Speaks. Chief Justice Marshall, in his speech, paid tribute to Harding's record as president, declaring "His life was a life of useful service, and his death the death of a martyr, sacrificed upon the altar of service to his country and his countrymen." "Harrison and Taylor and Harding were martyrs, though they died with-

### GIRL FLYER PLANS ANOTHER ATTEMPT TO SPAN ATLANTIC

Aviatrix and Pilot Halde- man Welcomed by New York.

### GREAT RECEPTION Will be Guests at White House on Monday.

NEW YORK, Nov. 11.—Ruth Elder came home today, to receive a great reception with the cool remark that she had already started planning to attempt her trans-Atlantic flight again.

Cheered vociferously, "If nobody beats me to it," she said, as the great welcoming crowd cheered, "I'll be flying out over the Atlantic again."

Miss Elder was given a tremendous welcome. Great crowds—almost as big as those that waited for Lindbergh—were at the battery when she was landed by the city welcome boat, the Macom, which had gone up the harbor to meet the Aquitania. She was cheered vociferously on all sides and responded to the applause with smiles and waves of her hand. There was a terrific din and shrieking of steamer whistles as she was brought up the harbor, and the ovation was intensified by the roars of the crowd at the battery when she landed.

It was a minutes after she was taken aboard the Macom that her young husband, Lyle Womack, had a chance to greet her. She was surrounded by reporters and cameramen. Finally she was permitted to go to the pilot's house where Womack was waiting.

"Hello kid, how are you?" he said as he embraced and kissed her. "I never felt better in my life," she said, flashing a dazzling smile.

Picture from Fashion Magazine. Ruth looked as if she had stepped out of a fashion magazine. As the Macom drew alongside the Aquitania, a smiling, pretty face was silhouetted against an open porthole. She wore the latest from Paris—a broadcloth black ensemble trimmed at the neck with a fur collar, a black fur jacket, black gloves buttoned far up the wrist, black shoes and taw-colored stockings. Her cheeks were tinted pinker with excitement than the cluster of orchids she wore. Halde-man appeared at the next port-hole. They both shouted greetings and waved madly at their relatives and friends aboard the Macom. It was a picture fit for a movie—and the camera boys ground until their arms ached.

"If Miss Elder wants to try it again I'll be tickled to death to go with her," declared Halde-man.

"I have a new plane in mind," said Ruth. "A duplicate of the American Girl."

Reporters persisted in asking questions as the domestic relationship between the aviatrix and her husband. "There are no differences between Lyle and me," she finally said.

Already feted in the Azores, Portugal, Spain and France, the daring aviatrix and Captain George Halde-man, her copilot on their ill-fated

## All Ready, Mr. Weather Man -- Bring On Your Cold Wave

### Cowper, the Poet, Wrote These Fine Lines

"An idler is a watch that wants both hands as useless if it goes as if it stands."

The difference between watches and men is to be measured by what they do.

This we know full well, that there are men we meet from whom we learn nothing, and there are also men who come without any intention of bringing anything to you, but, without knowing why, their presence makes you feel that you want to be a better man. It is not that they come to you with a lesson, but you know that their manliness and nobility has struck a salient note within you to be a better man. You know it.

### FASHION-GRAMS

Latest news of the world of fashion condensed for quick reading:

There is something new under the sun—fish mesh hose for evening!

The smarter the coat this season, the more unexpected its use of fur—and smart indeed is the coat with the fur jabot ruffle. Smart and decidedly flattering.

A touch of velvet is a touch of chic, for either frock or hat.

The flat furs, the curly flat furs, like caracul, astrakan and krimmer, are decidedly a la mode.

Many of the newest coats let all their interest center on their unusual cuffs, which do intricate things indeed.

The newest silhouette of the season is the princess line, slightly fitted above the waistline. A prophetic new note in the mode.

Of all necklines, the deep V is smartest—emphasizing its line by the use of flesh chiffon for evening and lovely old lace for afternoon.

The uneven hemline is the smartest hemline of all, which makes the draped frock the smartest frock.

Swallow-tail for evening! Not for gentlemen, but for their smart ladies. For the swallow tail is the lovely new frock whose hem drags waistfully to the ground in the back.

Lelong blue is known as "LL" blue, and its neither blue nor green, but a suggestion of both.

Decidedly new this season is the importance of the afternoon costume and the relegation of sports clothes to things decidedly informal.

The tweed ensemble is the most important costume in milady's wardrobe.

"Tabac" brown is the very explicit name for the loveliest brown of the season.

A month ago, any frock with a drape was smart. Today, the smartest carry their drapes forward.

Velvet is the fabric of the hour. Velvet in black is invincible.

Just as every cloud has its shining lining, so too, has every smart evening wrap.

## SETTLEMENT MADE IN FARM SALE

There was a settlement out of court in the case of Mary E. W. Frost against John H. Albright, the costs being paid, with no further record being made in court.

Mrs. Frost borrowed \$1,000 from the defendant early in 1922 and gave him a deed to the farm of 71 acres in Hanover township to secure the loan, with the understanding the money

would be repaid later, and the farm returned. Recently the plaintiff learned the defendant placed a mortgage of \$1,500 on the property and was attempting to sell the land. Then an action was filed in common pleas court May 17th last against the defendant.

The defendant claimed that he was to own the farm should the money not be repaid in two years. According to the terms of settlement, Mrs. Frost regains the farm, but with a mortgage of \$1,500 on it.

## CASES DROPPED FROM DOCKET

### Action Taken by Judge Lones for Lack of Prosecution.

Because there has been no prosecution, either on the part of the plaintiffs or the defendants, 13 cases have been dismissed from the common pleas court record by Judge W. F. Lones.

"There are going to be a lot more wiped off the docket within the next few weeks," the court declared. "When litigants fail to show interest in the cases filed by or against them, then it is time to dismiss them after they have remained a matter of record for some years. 'We're going to make short work of a lot of cases unless plaintiffs or defendants show some interest. Attorneys of course will be given ample time, but when no appearance is entered when the cases are set for hearing, then they will be dismissed for lack of prosecution and at the costs of the plaintiff."

Cases dismissed for want of prosecution are:

M. F. McHenry against Owen Hughes filed on appeal Aug. 28, 1925.

R. B. Stevenson against Harvey Aronson, appeal from lower court, filed July 10, 1925.

A. J. Corbin against H. M. Aronson, filed on appeal, claim for \$35 from lower court. Filed Jan. 20, 1925.

Edward Mahoney against Mike Winters, appeal from judgment from lower court for work and labor. Filed Dec. 23, 1924.

George Grosscross against Frank Mitcheson, appeal from lower court for \$42.20 for damage to motor vehicle. Filed Nov. 22, 1924.

The Julius Goetz & Co. against Ralph Whitman appeal from lower court. Judgment from. Judgment for \$14.30 for clothing. Filed Oct. 24, 1924.

Harry Wedgewood against Harry Johnson and others, appeal from lower court. Judgment for \$12.15 for damage to automobile. Filed Oct. 22, 1924.

State of Ohio on relation of Cassie Stutler against Herman Campbell.

Cordelia Witherow against Elmo Roe, appeal from lower court; \$6.50 claimed due on a board bill. Filed Feb. 16, 1925.

Martin H. Amon against Reese Barnes, claim \$200 and costs for hay, including interest. Filed Feb. 6, 1925.

Sidney Cope against Conrad Berg and other (county commissioners) claim for \$850 sought as damages to automobile. Filed Jan. 20, 1925, and dismissed at costs of the plaintiff.

Peninsular Trading Agency Incorporated against New Trend Tire company, \$23,462.41 claimed due on trade acceptances. Dismissed for want of prosecution at costs of plaintiff. Filed Feb. 13, 1925.

#### Directed Verdict.

After a jury had been drawn and taken to the scene of the purported wreck of a motor vehicle by a car of the Stark Electric company, evidence was submitted and a directed verdict for the defendant returned by the jury in the case of John Pascola against the Stark Electric Co.

#### Action Dismissed.

An action in attachment filed in common pleas court Oct. 13 last by Mary A. Buckley against Flora E. Harpold, has been dismissed from the record on the motion of the defendant and at her costs.

#### Judgment Rendered.

Judgment by default for \$873.18 in favor of the plaintiff has been entered by Judge Lones in the case of Titus

Hoskins against George M. Aton. The suit was for money and foreclosure, and was made a matter of record Oct. 6 last.

#### Divorce Granted.

On the grounds of wilful absence for over a period of three years, a decree of divorce has been granted Gordon L. Ormes from his wife, Katherine C. Ormes. This case has been pending since Sept. 20, last.

#### Verdict Returned.

A jury returned a verdict for \$148.80 in the case of James E. Simpson against Alice Grafton, as administratrix. The petition in this case filed August 11 last sought a judgment for \$145 and interest.

#### Case Settled.

A settlement at the costs of the defendants has been entered in the case of G. J. Clark against Flora B. and John Swickard, with no record following.

#### Leave To File.

Leave to the plaintiff to file a petition by Nov. 14 has been granted by the court in the case of J. G. Madden and Max Barden against James Clark. This is an appeal from a lower court for a judgment for \$77.35, the transcript having been filed March 6, 1925.

## Sebring

For the second time in the history of the city, Sebring elected a Democratic mayor, when E. E. Harmon was re-elected over his Republican opponent, Samuel McCammon by a vote of 624 to 481. Carl Sanderson, Independent candidate, polled 39 votes. Charles Baumgartner was re-elected marshal. James Elliott retained the clerkship and E. L. Barrett was re-elected treasurer. Mrs. C. N. Deemer and Mrs. Sola Fowler won school board places. Sebring cast 1,214 votes, the second largest in the history of the city.

One of the most interesting races for township office, justice of the peace contest in which five candidates were entered, was won by two Sebring men, F. O. Brooks, now serving, and Guy Mushrush. Brooks polled 737 votes in the township and Mushrush 788. A. H. Lindsay of Sebring, received 615 votes. S. Robertson 346 and Robert Green, now serving in Beloit, received 417. One of the biggest surprises of the election was the result of the race for constable in which Samuel Pearson, Alva Tetlow, J. E. Brown and William Kocher were running. Pearson of Sebring, who has been an officer here for years, polled the highest vote of the four, receiving 793. Tetlow and Pearson will

fill the office as there are two to be elected. J. E. Brown of Sebring ran third.

Sebring upheld the Marshall bill by 184 votes. Electors also approved the chiropractic bill by voting 578 for it and 580 against it.

Fire caused by an overheated stove in the home of C. Sharp, 16th street, caused \$150 damage Tuesday morning.

Robert Green, an elder of the church and Rev. J. H. Miller, pastor of the United Presbyterian church, attended the Cleveland presbytery meeting at Akron Tuesday. Rev. Ira F. Leeper, pastor of the United Presbyterian church of Alliance, accompanied the party.

Degree team of the Daughters of America were entertained Monday evening at the home of Mrs. Helen Baumgartner of Sebring. Mrs. Rose Grossman and Mrs. Nettie Pretty were winners in the contests. Mrs. Baumgartner, assisted by Mrs. Lottie Brown, Mrs. Wilbur Hannon and Mrs. Rose Grossman served refreshments.

A box of toys will be sent to children at the United Presbyterian mission in Kentucky. Members of the Young Women's Missionary society plan to make the gift.

A Thanksgiving party was also planned to be held Monday evening, November 21, at the home of Mrs. Harold Dorff, Park avenue and Columbia streets, Alliance.

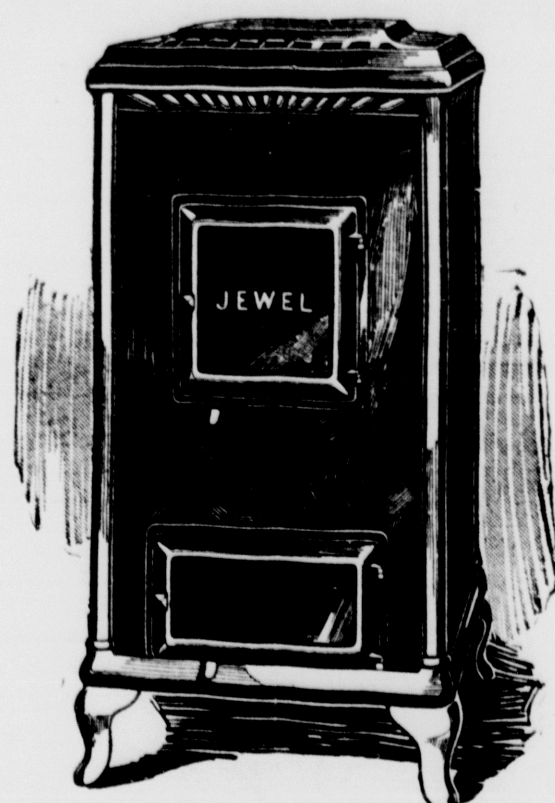

McKinley high school is to have a boy's glee club. The club was organized at a meeting Monday afternoon at the high school under the direction of Professor E. L. Allen, high school director. Robert Stump was chosen president and George Zurbrugg, secretary-treasurer. The object of the organization is to promote and encourage musical talent at the high school.

#### "Pearl Shower" Only Eggs.

A reported "shower of eggs" near Secunderabad, India, recently, caused a rush to the spot where they fell. Following a heavy rain storm a native discovered the ground covered with white globules, ranging in size from that of a nut to a mustard seed. Thousands flocked to the field in autos, on bicycles and on foot, and gathered the "pearls" by the handful. Police authorities investigated and found that the "pearls" were eggs resembling the genuine article. Many who had collected the eggs are still keeping them, refusing to believe that they are not pearls. The man who discovered them sent a bagful to the authorities at Hyderabad and demanded payment for the "pearls."

Germans are increasing their deposits in savings banks.

Czechoslovakia is to have two new government railroad lines.

## EAST LIVERPOOL—AMERICA'S POTTERY CENTER

FRIDAY, NOVEMBER 11, 1927.

### Armistice Day

Recalling the rejoicing that marked November 11, 1918, when every man and woman and hundreds of children in the district celebrated the cessation of four years' hostilities in the World War, East Liverpool today celebrated Armistice Day.

Nine years ago, an impromptu parade, in which both sexes participated and in which enthusiasm knew no bounds, was organized as workers and employers quit their places in industrial plants, business houses and offices and marched. Today no parade was staged, but the occasion was not forgotten.

A two-minute period of silence, in honor of the men who made the supreme sacrifice in the holocaust, was observed in the stores and potteries preceding 11 o'clock—the hour of the armistice. And church bells and factory whistles joined in the noise-making at the memorable hour, just as had been done when the tables flashed the joyful news on that November morning nine years ago. Tonight, the American Legion, Elks, Sons of St. George and other patriotic and fraternal organizations will observe the anniversary with appropriate programs.

There have been many in the years since 1918 to point out that the war wasn't really over, that the armistice was premature, that the peace which followed was a very bad peace, and that a whole lot of achievements we considered certain then have since vanished into thin air.

Don't let the pessimists deceive us. The hysterical rejoicing that followed upon the announcement of the armistice revealed then clearly enough that, wise or foolish, the end of the war, the cessation of international fighting, was recognized as greater than any other aim.

Deep down in human hearts is profound agreement with Benjamin Franklin's appraisal, "There never was a good war or a bad peace."

What about the American Revolution? What about the Civil War? What about the 'war to end war'? How could we have got along without them?

Well, even in those wars which we tacitly recognize as "righteous," the fact remains that the many were made to suffer for the blunders of the few. Wise statesmanship on both sides might have warded off those wars.

When wars between civilized nations come to an end, the conditions of peace are worked out slowly and with much argument and compromise, by men who fight with words and ideas instead of guns and poison gas. They could do this without all the preceding bloodshed if the common run of us humans could only remember from one war to the next how bad war is and how little it accomplishes in compensation for the lives it takes, the sorrows and sufferings it inflicts, the evil forces it unleashes, the waste it entails.

### Milking Contests

They're going to have a big live stock show in Cleveland, and with it a milking contest.

Yes, ma'am!" says the young man from Texas who is running the show. "And they've got to milk three minutes in a row to win a prize."

Down in Texas, he says, a good many of the girls really can milk. He wants to see if northern girls can do as well. And as foreshadowed, they must produce the goods. The young Texan is fed up on "Dixie stomp champions who can stomp but not dance, bathing beauty champions who can't swim, and pole-sitting champions who can only sit."

All right—on with the milking! It's an agreeable variation from the usual bunk contests, and in some ways preferable even to a perfectly honest hog-calling contest.

Milking is one of the most ancient of feminine arts, languishing in an age of machinery, but not yet altogether extinct. There may be more in it than modern city girls realize.

It's no handicap to getting a husband," observes the young man from Texas. "It works the other way." Which is natural enough. There's a sort of symbolism in the old nursery rhyme of the pretty maid who was going a-milking, and the admirer who wanted to go along.

### Night Traffic

New York City hopes to overcome some of its street traffic difficulty by diverting day traffic to night hours. This would be done especially with heavy truck hauling and commercial deliveries, which are now responsible for a large part of the continuous traffic jam by day.

Undoubtedly a great deal might be accomplished by such a method of "staggering" the vehicular traffic, if the city had the co-operation of manufacturers, merchants, contractors and transportation interests. Much of the heavy street transportation could be handled easily while the city is asleep and the streets are comparatively empty. There would be a double benefit, to automobiles by day and trucks by night—both would find easier going and make better speed and save expense. Streets would rise to full efficiency if used throughout the 24 hours.

Traffic problems in big cities and little cities differ only in degree. Night traffic is sure to increase everywhere.

Another logical way to ease traffic is to do as much of the street paving and repairing as possible at night. There is good progress in many cities along this line.

Such changes call for better street lighting. That costs money, but tends to pay for itself in many ways.

Time used to go very slowly in jail, but nowadays an experienced criminal can serve 20 years in three.

### The Village Half-Wit—

NEW YORK, Nov. 11. — Thoughts while strolling: Those souvenir shops selling enameled cigarette cases with inset nude ladies. And topaz-handled daggers. John Erskine. Old cabbies who have discarded straw plug hats for those of patent leather. Those chow dogs with blackberry tongues.

Hungarian needlework and Venetian paintings. Haberdashery sign: "Stocks to hide boils." The seedy old man who sells collapsing balloon ducks. A derby named "The Jimmy Walker." More flags flung out—and few know why. New York wears patriotism on its sleeve.

Collegiate pants still flop. Kentucky Colonel types who sell corn salve. And timid fat women who seem to sneak up to penny scales. Clifton scarfs and jeweled heels. Apartment houses with colonial fronts, red brick courts and wigged doormen in knee breeches.

The Italian nobleman who wears a feather in his Homburg hat. And eats at Child's. Frank quick lunch sign: "This is not home cooking, but it's good grub." Those expensive mahogany desert-like first floor offices. With round shouldered vases and Turkish rugs.

The Fifth Avenue five o'clock parade swings by. Expressionless girls with lips crookedly rouged. Old boys with buttery phrases whose wives are cooking their dinners. Solemn Britishers. Roaming auto flirts. Wing collars. Puff ties. Fin-de-siecle mustaches.

Wire haired fox terriers with red leashes. Squat, waddling Scotties. And razor thin wolf hounds. Venerable ladies with A. D. T. escorts. Actors whose fame has exploded still swinging canes. The rotund Joseph Hergesheimer. The purr of pigeons around cathedral eaves.

Shirt sleeved window dressers making ready for another day. Trim mannikins from dressmaking parlors. Night watchmen bring their pipes and chairs to doorways. Butlers peer through the grilled doors of the few remaining mansions. The son of a Swedish masseur who has scaled the social heights.

The hair bobbers are not exactly worried—but they may be if it keeps up. Many young girls of that world known as chic are appearing with slight loose knots of hair at the nape of the neck. Which means a number of ladies are letting their hair grow. Several toney shops have chipped in to hire a public relations counsel—

### Abe Martin Says:

Marriage is purty much of a lottery, 'cept we know what sort o' knees we're gittin'. It's said that over eighty per cent o' federal prisoners are educated, which goes t' prove that idleness soon gits us into trouble.

### HASKIN'S LETTER

By FREDERIC J. HASKIN

The Best Kind of Gas.  
WASHINGTON, D. C. Nov. 11.—The man who can tell which is the best gas with which to run a motor vehicle, or who can manufacture the best gas and then demonstrate its superiority, has a tremendous fortune within his grasp, according to automotive authorities. The question of what gas to use, or which is most efficient for various purposes, worries motor vehicle owners and operators more than any other problem. It is stated, save possibly meeting the installations on the old bus.

The question as to which is the best car to buy is relatively unimportant in these days when there are so many makes of almost uniform excellence that the buyer can scarcely go wrong in any selection he may make. He may not get the absolutely best car on the market at the price he is paying, but he will get one that is good enough and that will assure him a fair value for his money.

Similarly with tires, it is said, the various grades of various makes rate so closely together that the purchaser is reasonably certain to get his money's worth no matter what his selection—or his guess—may be. But when a man has his car, and it has tires and everything to make it ready to start out on the road except a full tank, the question of the gas to use becomes something to worry about and that may keep him worrying off and on for many moons.

At the outset he usually answers it by following the suggestion of the dealer who sold him his car, or by taking the advice of the man at the service station he patronizes. Perhaps he will be quite satisfied for a time, and then one day a friend will ask him what gas he uses and, when answered, shake his head sadly and tell him that he is all wrong. "You should use Whoopla Gas," he will be advised. "I am getting 23 miles to the gallon out of it, there isn't a bit of carbon in a barrel of it, and it's got so much power you have to be darned careful about how you step on the accelerator."

### WHAT YOU READ LONG TIME AGO

#### TWENTY-FIVE YEARS AGO.

C. L. Gray, with Oliver Vodrey and Miss Mary Vodrey, will spend Sunday with friends in Bethany.

James Moffatt is visiting with friends in Pittsburgh.

Dr. and Mrs. Bittles of New Castle were weekend guests of Mr. and Mrs. R. E. Spencer.

Miss Edna Z. Smith of Calcutta street will entertain a group of friends in her home tomorrow.

Robert Orin and J. H. McConaughy will go to Columbiana Saturday to initiate a lodge of the N. A. S. E. No. 95.

#### FIFTEEN YEARS AGO.

November 11, 1912.

Miss Jennie Ross became the bride of Bertram Stewart in St. Stephen's Episcopal church Wednesday afternoon.

A daughter has been born to Mr. and Mrs. Urban Mays of Mapletree street.

Announcement is made of the marriage of Miss Sylvia Morrell and James McCain, both of the West End. F. B. Chambers of St. George street, East End, is confined to his home by an attack of grip.

Miss Ethel Peterson of Virginia avenue is the guest of relatives in New Athens, O.

#### TEN YEARS AGO.

November 11, 1917.

No issue of today.

Curtains of artificial silk are taking the place of the cotton variety to such an extent in Europe that there is a scarcity of operators to make them.

A halibut weighing 329 pounds, the largest ever landed at any fishing port of the West Coast of England, was caught recently.

More than 1,150,000 pounds of coffee were raised in the Province of Chiriqui, Panama, alone this season. Japan faces an era of strikes. People of China are learning to use handkerchiefs.

All He Wants is Everything.  
That sounds impressive. Like the man who had a few thousand dollars to invest and all he wanted was an absolutely safe investment that would yield him about 100 per cent per month, so all the man with an automobile wants in the way of gas is merely everything that goes to make gas efficient. He wants the gas that will be the best for his particular engine, that will be knockless, that will give him the most mileage, be the easiest with which to start the engine in cold weather, and develop the most power and the quickest pickup. Maybe the gas he is hearing about has all that, or enough of it to make it a highly satisfactory fuel.

Then Mr. Motorist begins experimenting, or if he is cautious he begins studying the question, making inquiries about various fuels and checking up the diverse reports he gets. At any rate, the chances are that he soon finds himself one of the great army that is seeking the perfect gas.

Later, so some of the experts say, he won't learn that that is the gas that hasn't been made as yet, and probably never will be made. But from the moment he begins making inquiries, he will get plenty of advice, for nine out of ten of those whom he consults are prepared to tell him which is the best gas for his purposes, and exactly why it is.

He will be counseled that he should—or should not—use "doped" gas, or high-test gas, or straight gas, and for each of those grades he will probably have almost as many brands or makes recommended to him as there are on the market. The first conflict in the advice he will receive will be as to the grade of gas that is most desirable. Straight gas—the common, or garden variety—has many staunch advocates who will tell him he is foolish to waste his money paying the additional price that is charged for the other grades. Boosters of high test gas will tell him it will save him the extra cost in economies of operation and maintenance and give him immeasurably better results. And advocates of the gas that has been doped with tetraethyl lead will undertake to prove to him that it is even more superior to other high test gas than the latter is to straight gas.

It is all a bit bewildering to the new motorist and even old-timers not infrequently find it so.

Many Changes on One Trip.  
A Washington man who made a trip to the Middle West recently left this city using a certain high test gas that he had been using for two or three years with generally satisfactory results, but before he had been gone very long he listened to a lot of "gas talk" and permitted himself to be switched off to straight gas. He drove several hundred miles using one brand or another of that grade. One brand he thought must be especially good because it was recommended confidentially by a man connected with a company that made and marketed a different brand. The Washington

**\$36,000 Spot Cash**

Not long since, a certain man purchased an eastern hotel for \$36,000 spot cash. He came to America 22 years ago, repaired shoes amidst keen competition, lived comfortably and raised a large family.

Was he successful? He was. How did he win success? Just plain common sense, hard work and intelligent saving.

## ARMISTICE DAY

## How the Other Half Behaves

### SPOOKY BURGLAR.

CLEVELAND, O.—A phantom burglar, clad in white shirt, trousers, and shoes, who vanishes as if the earth swallows him, has been terrorizing East Side residents. One night, recently, police fired at the ghost-like form trapped on a roof. He toppled as the shot rang out. Police rushed to the building, but the burglar had vanished. Not even a speck of blood marked his trail.

### SYNTHETIC KICK.

A Scotsman was entertaining a guest for the night. The evening was spent in weighty conversation, no offer of liquid refreshment being made. About 10:30 the host said suddenly, "Now, how about a wee deoch-an-doris, eh?" The guest rubbed his hands and chuckled. "Splendid!" So the host, smiling genially, rose and put Sir Harry Lauder's celebrated song record on the gramophone.

### BUSINESS.

"Are you engaged to him?" "Yes," answered the prudent girl. "But I have requested time to verify reports on his title and fortune." "That is not an engagement. That is an option."

### Prince Has Prince Double.

Prince George of England has been considerably embarrassed lately by being reported in all sorts of places abroad while he has been at Balmoral all the time. His "double" is Prince George of Russia, who is not the least bit like him in appearance. The Russian George speaks perfect English, however, and is often taken for a member of the English royal family. He is nearly six feet four inches tall.

### Stag Attacks Automobile.

Dazzled by the headlights of the automobile of Archibald MacGill, of Tobermory, Scotland, an infuriated stag attacked the car. By clever manipulation, MacGill swerved his machine at the critical moment and pinned the animal beneath the car, thus saving his own and the passengers' lives. The animal shrieked with pain, but was soon released and escaped. The front springs of the car were bent.

## IOWA PLANNING TO MINE COAL FOR STATE USE

Recent Strike Partly Responsible for Program.

ECONOMY MOVE

New Penitentiary May be Erected Near Des Moines.

DES MOINES, Ia.—The state of Iowa plans to go into the coal mining business on its own. In doing so Iowa

will follow the example of some of the other state governments. Kansas, the state officials pointed out, has mined coal for its own institutions for years.

Whether the recent coal strike in Iowa is responsible for the state's action was not stated. However, that year the state purchased from Kentucky and other nonunion fields thousands of tons of coal that ordinarily would have come from mines within the state.

**State as Customer.**  
 More than 125,000 tons of coal are used each year in state maintained institutions, and the executive council believes the taxpayers will be saved a considerable amount of money if the natural resources on state-owned property be used.

**Build New Prison.**  
 The present proposal calls for mining coal on land located about ten miles from Des Moines. The property at the present time is utilized as a state game preserve and fish hatchery. Prison labor would be used in the work, it was said, the prisoners receiving a nominal sum for their labor.

There is also a possibility that a new state penitentiary would be erected near Des Moines if this move is made. At present the penitentiary is located at Fort Madison, in the extreme southeastern corner of the state, while the men's reformatory is at Anamosa, in the east central section.

It is pointed out that a centrally located prison would mean a saving over a long period of years in railroad fare incurred in transporting prisoners from distant parts of the state to the present penitentiaries.

# False Pretense Is Charged As Aftermath of Midland Man's Deal In Alliance, O.

## WOMAN ARRESTED IN HOUSE RAID

Marie Marinkovich, 32, widow, 363 Beaver avenue, will face Justice Charles A. Kennedy today on a charge of maintaining a disorderly house, following her arrest yesterday, afternoon when police raided her home. Police alleged they found a quart of moonshine and a five-gallon still beneath the kitchen floor.

## JOHN BUDIMER OF YOUNGSTOWN TO FACE COURT

Michael Krivosiyo Files Complaint in Sale of Lot.

\$200 INVOLVED

Agent Refused to Re-fund Money, it is Alleged.

John Budimer, Youngstown, is being held today for grand jury action in Beaver county jail under \$300 bond on a charge of false pretenses. He was given a hearing yesterday afternoon before Justice Charles A. Kennedy.

Budimer, it is alleged, acting as an agent for a real estate company, sold a lot near Alliance to Michael Krivosiyo, 50 Midland avenue, for \$300, accepting a \$200 down payment.

Krivosiyo charges the lot was not as represented, and Budimer refused to return the \$200 payment.

Budimer was taken to Beaver jail yesterday by police following his hearing. He was defended by E. M. Wallover, Midland attorney. Stewart McConnell, Beaver, represented Krivosiyo.

## FIRE DAMAGES GROCERY STORE

## STABBING PAINS IN STOMACH

Immediate and Safe Relief

Sudden pains in your stomach are sure signs of excess gastric acid. As time goes on this acidity may lead to gastritis or be the cause of dangerous stomach troubles. These first signs of pain and indigestion should never be neglected, and quick relief can be obtained by taking a little "Pape's Diapepsin" after eating or when pain is felt.

"Pape's Diapepsin" instantly neutralizes the excess stomach acid and soothes, heals and strengthens the inflamed stomach lining, thus promoting normal, painless digestion and helping to prevent future trouble.

For many years millions have used and recommended "Pape's Diapepsin" for the speedy and sure relief of indigestion and allied stomach troubles. Follow their example! Get a 60-cent package of "Pape's Diapepsin" from your druggist; no matter how severe your pains and stomach troubles have been you will get instant and safe relief.

# "KING" PURNELL NEAR DEATH AT BENTON HARBOR

House of David Head  
Crushed by Court  
Ruling.

## BRANDED FRAUD

Wastes Away From 200  
to 130 Pounds, Doc-  
tor Says.

BENTON, HARBOR, Mich., Nov. 11.—Crushed by the decision of Circuit Judge Louis H. Ford branding him a fraud and a despoiler of young girls under the guise of religion and exiling him from the House of David, "King" Benjamin Purnell is near death today, according to Dr. C. N. Sowers, personal physician of the cult chieftain.

The interview with the colony physician was cut short by frantic calls from Purnell's attendants and the doctor hastened to the bedside of the stricken leader of the colony who has wasted away from a 200 pound bean-brummel to a 130 pound "skin and bone invalid." At the best Purnell, who is reported suffering from a complication of diseases, cannot live more than three months, Dr. Sowers said.

ocean hop, were to be welcomed home by an even more enthusiastic greet-  
ing.

Mrs. H. P. Belmont, society leader and president of the National Women's party, is to be a speaker at a dinner given by the organization in honor of Miss Elder at the Hotel Ambassador Sunday night.

Miss Elder and her flying companions were to go to the Hotel St. Regis for luncheon, returning to city hall for the official welcome by Mayor Walker. They were to be presented with a scroll at ceremonies in the aldermanic chamber which were to be broadcast over the municipal radio station.

Tonight Miss Elder and Captain Haldeman will be guests of Florenz Ziegfeld at the "Ziegfeld Follies."

Dinner Sunday Night.

The dinner given by the National Women's party Sunday night will be attended by a host of celebrities. On the list of speakers are Mrs. James J. Walker, wife of the mayor; Miss Eva L. Gallienne, Mrs. William Randolph Hearst, Mrs. W. K. Vanderbilt, Miss Elder and Captain Haldeman.

The dinner will be a testimonial to the achievement of a woman, the purpose of the women's organization being to bring about equality of opportunity for women in every field.

After the banquet, Ruth and Haldeman will travel to Washington, where they will be guests of President and Mrs. Coolidge at luncheon Monday. They will return Tuesday to New York.

## TODAY

(Continued from Page One)

bandit. But bandits have become emperors, and many emperors have been bandits, since and before Alexander and Napoleon.

TWO aviators in the American Marine service were murdered in Nicaragua, when their machine made a forced landing—killed by a crowd of twenty to one, after desperate fighting.

That is the sort of thing that starts wars. The killing of one man, the Austrian heir apparent, was the spark that started the big war.

No war will start this time, because Nicaragua is too small. An elephant can't fight a chipmunk. And besides, the government of Nicaragua had nothing to do with it.

PRESIDENT COOLIDGE is said to favor a repeal of United States inheritance taxes. Many will agree with the president. Why not tax a man while alive, able to earn and to fight, instead of waiting until he is dead and taxing his corpse, or his widow and children?

## Greed Cause of War

(Continued from Page One)

ses of the Germans appear at frequent intervals along the entire front calling aloud to the world "Let us have peace."

"The members of the American Legion and the people of America will harken to these appeals for peace. We will do what we can to meet the peoples of the world in a just and honest way. We will not impose on the peoples of any other country and in our might like a brave man girded for a great race we will carry the olive branch to all the world.

"Our dead must not have died in vain and never again must our hospitals be filled with casualties of another war. We must be trained and strong as the warriors from whom we spring, but we must be as gentle and forgiving as was our mother.

"It is generally conceded that the greatest causes of war are greed and fear. The American Legion believes that if our Navy is kept at the true five-five-three ration, if the National Defense Act of 1920 is enforced in all its details and the Universal Draft laws are enacted so that all profit may be taken out of war, that we may and will have peace."

out violence. The untimely death of each was due to the arduous and exacting demands of an office which no man of ordinary physique can meet.

"We would not disturb the rest in which he sleeps. We would not recall him to the scenes of his earthly labors. His part has been honestly and faithfully performed. He has earned his repose."

COLUMBUS, O., Nov. 11.—Approximately 1,000 Republican women, in 300 automobiles, left here today for Marion to participate in the ceremonies at the tomb of the late President Warren G. Harding, put on by the Ohio Council of Republican Women.

The council opened its two-day conference here this morning with about 2,000 in attendance. Delegates from Columbus and Franklin county were requested not to join in the Marion pilgrimage, in order that adequate facilities might be provided for visitors.

The caravan formed at Broad and High streets at 9 o'clock this morning and was escorted to the city limits by motorcycle policemen. It was scheduled to start on the return trip at 3 o'clock this afternoon.

Banquet Tonight.

The program at the Deshler hotel here this afternoon includes an organ prelude by Mrs. James Glenn; prayer and invocation by Mrs. Viola D. Romans, president of the Women's Republican club of Ohio; presentation of the keys of Columbus by Mayor Thomas; address of welcome by Mrs. Wilma Sinclair Levan of Steubenville, Republican national committeewoman from Ohio; greetings from the state central committee by Fred W. Arner. A banquet, scheduled for tonight at the Neil house, will be one of the most important meetings of Ohio Republican women ever held, according to Mrs. Thad H. Brown, chairman of the committee on arrangements. Among the speakers are Senators Frank B. Willis and Simeon Fess, Mayor Thomas, of Columbus; Maurice Mauck, Republican leader, of Cleveland, and Mrs. Charles H. Sabin, Republican national committeewoman for New York.

## HOOT GIBSON AT THE STRAND

"Painted Ponies" is  
Screen Offering  
Tomorrow.

Hoot Gibson's followers will rise and cheer when they see "Painted Ponies," his next Universal Jewel feature which comes Saturday to the Strand theatre, for the star does some dizzy tricks on bucking broncos that are revelations in riding. When you see him do those rodeo stunts you'll know Hoot is a real cowboy, for no Hollywood phalanx could do those stunts.

Eblyne Clair, who leads all the western heroines for good looks, is the heroine of "Painted Ponies," which is the thrilling and laughable screen story of Bucky Simms, champion cowboy of the north. He blows into Toptown to compete in the annual rodeo, falls in love with a pretty girl who runs a merry-go-round and gains the enmity of Pinto Pete, his rival in riding and love. Pinto commits a crime and frames Bucky, who is thrown in jail the day before the big show, and if that isn't enough to rouse the fighting blood of any movie fan listen to this:

A great part of the film was shot at the famous Sanges, California, rodeo and the sequences of the bronco busting, steer roping and other cowboy athletics are the greatest ever incorporated in a motion picture.

## Unfurl German Flag

(Continued from Page One)

were unfurled above the legations of those governments.

In this silent manner these former enemy nations took official cognizance of Armistice day in the capital of the country whose force of arms and of wealth thrown into the conflict on the side of the allies brought to an end the great world conflagration nine years ago.

It was their way of proclaiming that they accept the observance of Armistice day in America as a day of sorrowful remembrance of the dead of all nations and of thanksgiving for the peace of the world, and not as a day of gloating celebration for victory over a crushed and beaten foe.

Special Tribute to America.

And because America has so consecrated this anniversary, Washington is the old capital in the world where the flags of these former enemy nations are permitted by their governments to be raised today above their diplomatic missions. It is a special tribute accorded to the United States in recognition and appreciation of the spirit of friendship and helpfulness that has marked the course of America and Americans in dealing with their former enemies since peace was proclaimed.

The precedent for today's action was laid down by the late Baron Ago von Maltzan, who as German ambassador here a year ago, acting on his own initiative and without consulting his home government, had the flag of the German republic hoisted to the staff above the embassy.

When news of that act was cabled back to Berlin it created a storm of resentment that found voice from nationalist spokesmen in the Reichstag. Foreign Minister Stresemann replied to these attacks, upholding and defending the action of the ambassador, because of the spirit in which America had buried the hatreds of war and made of Armistice Day a sacred occasion.

Honor America's War Dead.

In view of last year's storm there had been considerable speculation both here and in Germany as to what course would be pursued this Armistice Day. Numerous cablegrams were exchanged between the German embassy here and the foreign office in Berlin and between the American embassy in Berlin and the state department here. So far as is known, however, there were no diplomatic exchanges on the subject between the two governments.

It was not until the flag was hoisted above the embassy this morning that the German government's decision to make an exception and do this honor to America's war dead became publicly known.

Britain Pays Homage.

LONDON, Nov. 11.—All Britain from royalty to worker united in paying Armistice Day homage to war dead.

Despite a cold wind which swept Whitehall, a little group of men and women had maintained an all-night vigil at the cenotaph, where the main ceremonies took place. Break sunshine failed to temper the chill.

The whole world may have an opportunity to hear the Prince of Wales when he addresses 10,000 British war veterans at Albert hall tonight. The Griffiths Broadcasting corporation announced that it would attempt to broadcast the prince's speech around the world through the linking up of foreign broadcasting stations.

By DAVID LLOYD GEORGE.

LONDON, Nov. 11.—The tenth milestone from the Armistice, which brought to an end the most gigantic and destructive conflict ever waged on this earth, is a convenient spot on which to pause in the journey and look back on the havoc, the progress made in repairing and the steps taken to prevent its repetition.

The extent of the restoration already effected proves the resourcefulness of mankind—the tardiness displayed in adopting measures to avert a similar catastrophe proves the stubbornness of mankind.

## FARMER IS DYING AFTER CRASH

FOSTORIA, O., Nov. 11.—W. H. Clayton, 40, farmer, residing seven miles north of Upper Sandusky, was probably fatally injured when the cattle truck he was riding was struck by a southbound passenger train at a crossing here today. Clayton was taken to a hospital with a fractured skull.

## ARMISTICE DAY HOLIDAY IN OHIO

COLUMBUS, O., Nov. 11.—Ohio today for the first time observed Armistice Day as a legal holiday. This action was in conformity with legislation enacted at the session of the state legislature here last spring.

State, county and municipal offices and local banks were closed today.

A parade of veterans of the World war and of the Spanish-American war featured observance of Armistice Day here. Surrounded by veterans of the Civil war in the reviewing stand, Governor Vic Donahey reviewed the parade.

## T. T. TURNEY, LEETONIA, DIES

Civil War Veteran's  
Funeral to be Held  
Sunday.

Thomas J. Turney, 80, Civil war veteran, died today in his home, Hazel street, Leetonia, after a long illness of complication of diseases.

Mr. Turney was born in Piquette, Pa., and resided in Leetonia for 42 years. During the war he served with Company H, 191st Pennsylvania Volunteer Infantry. He was a member of the G. A. R. and Methodist Episcopal church.

He is survived by the following sons and daughters: Lock Turney, New Buffalo; Thomas Turney, Jr., Avon, O.; James Turney, Salem; Herbert Turney, Leetonia; Mrs. Sidney Shilder, McKeesport, Pa.; Mrs. George Ferguson, Mrs. Angie Gilbert and Miss Lenora Turney, all of Leetonia.

Funeral services will be held in the home at 2 o'clock Sunday afternoon, in charge of Rev. C. L. Cope, pastor of the Leetonia Methodist Episcopal church. Burial will be made in Oakdale cemetery.

## Steel Industry Sound, Says Schwab

YOUNGSTOWN, Nov. 11.—Charles M. Schwab, chairman of the Bethlehem Steel corporation, speaking before steel engineers of the Cleveland, Pittsburgh, Youngstown and Wheeling districts here last night, told his hearers that the steel industry was basically sound and that it promised to show steady improvement.

## PLAN SACRED CONCERT HERE

Cambrian Company  
at Episcopal Church  
Tuesday.

The Cambrian Concert company, which has made more than 3,000 appearances in the United States and Canada, will present a sacred concert in St. Stephen's Episcopal church, West Fourth street, at 8 o'clock Tuesday evening, under the auspices of the Men's club.

No fixed charge is to be made for admission cards, but donations toward the organ fund will be appreciated. Admission cards may be obtained from Leroy Birbeck, First National bank; Dr. Harry Frost, Little building; Rev. R. K. Caulk, rector, and members of the club.

The following artists will appear in the concert: Jeanette Christine, soprano, soloist of New York, Chicago, Milan, England and Wales; Glanville Davies, dramatic baritone of the Montomery, Cardigan, Anglesey and Carmarthen festivals; William For Jones, L. R. A. M., organist, pianist and accompanist, associate and Associate of the Royal Academy of Music, London, England.

## BOND IS SOUGHT FOR S. A. LENGEL

CANTON, O., Nov. 11.—While the state today was continuing to file application for admission of the S. A. Lengel case into the supreme court of Ohio, the defense was attempting to have Lengel released on bond, pending his new trial on charges of complicity in the Mellett murder here last year. Both sides have been held up by lack of journal entry which will not be filed before Saturday, according to present indications.

Today is the last day to file application for a share in the Mellett reward fund, it was announced. Applications now on file include William and Eva Betzler, Massillon, Steve Kaschok, Nanty Glo, Pa., Peggy Cavanaugh, Cleveland, and several others.

CAMPAIGN OPENS FOR RED CROSS

Drive for Subscriptions Launched in All Parts of State.

Eleventh annual drive of the American Red Cross society opened today in all sections of West Virginia in charge of the members of the respective chapters. The aim of the national organization is 5,000,000 members or an increase of two million over that of last year.

The campaign for more subscriptions is due to the fact that resources of the organization were heavily taxed during the year by the big flood in the Mississippi valley and by the recent high water in the New England states.

Money subscribed is divided between the local chapters and the national body at Washington.

Whether or not a drive will be launched in Hancock county has not been determined.

Facing Hard Game.

New Cumberland high school football team faces a hard test this afternoon in the game with Toronto at the latter place.

County Offices Closed.

Offices at the county court house at New Cumberland were closed today as Armistice Day is a legal holiday in West Virginia.

QUART OF WATER CLEANS KIDNEYS

Take a Little Salts if Your Back Hurts, or Bladder Is Troubling You

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jaid Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jaid Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications.

SHAY FUNERAL SERVICES HELD

Funeral services for Mrs. Mary Shay, 67, widow of James Shay, who died Tuesday in the home of her sister-in-law, Mrs. William Spivey, in Pughtown, were held in the Presbyterian church there yesterday afternoon, in charge of Rev. J. M. Kuehn, pastor of the New Cumberland Presbyterian church. Burial was made in the Pughtown cemetery.

Mrs. Shay was a member of the First Presbyterian church of East Liverpool. She was born at Boardman, near Youngstown, and had resided in Pughtown for 13 years. Her husband, employed for many years in the Erlanger store in East Liverpool, died several years ago.

CROWD EXPECTED AT GRID GAME

Large crowd is expected to attend the football game here tomorrow afternoon between Chester and Follansbee high school squads. The contest will be staged at Smith field beginning at 2:30.

The local squad has been put through several hard practice sessions during the week by Coach Ray Wilde. The visitors will be accompanied by a large delegation of rooters.

BROOKE GRAND JURY REPORTS

Thirty-four true bills, and fourteen not true bills were returned late Wednesday evening by the November term of grand jury in the Brooke county circuit court, which had been in session for three days.

Of the true bills, eleven were for felonies and twenty-three for misdemeanors, while fourteen charged contributing to the delinquency of a minor child and in twelve of the indictments the same girl was the complaining witness. Thomas Miletch was charged with the murder of Joe Salopek.

Armistice Day Quietly Observed.

There was no general observance of Armistice Day here today. Banks were closed while a period of silence was observed at 11 o'clock.

Flags were displayed in front of business houses and residences on Carolina avenue and other sections.

Business Men Meet.

Members of the Chester Business Men's association met last night in the Stewart building, Third street and Carolina avenue. The principal address was given by Rev. L. A. Britton, pastor of the First Christian church.

Cases Prepared.

Prosecuting Attorney Thomas Hoffman has prepared a list of cases which will be presented to the grand jury when it convenes Monday at New Cumberland.

England's Proudest Mother  
If the proudest mother in the United States is Mrs. Lindbergh, the proudest mother in England ought to be Mrs. Webster, of Walsall, mother of Sidney Norman Webster, flight lieutenant, who was victor in the

Schneider cup race, in which he flew at the rate of five miles a minute. Mrs. Webster has been overwhelmed with congratulations, and is still receiving them. She took a prominent part in the home-coming reception accorded the flyer by his native town.

Victim of Odd Coincidence.  
James Bannon, of Clonhinch, Scotland, was the victim of a curious coincidence when he was driving home after arriving from the United States. The horse, attached to the trap, took fright and bolted, the trap being over-

turned. Bannon sustained a broken right arm. Ten years ago, when he was leaving for the United States, the horse attached to the trap he was driving took fright and he was overturned at the same spot. His right arm was hurt, but not badly enough

to prevent him from continuing his journey.

**HONOR MISS BEATRICE McDEVITT,  
BRIDE-ELECT, AT BRIDGE-DINNER**

**Announcement of Engagement to Dennis F. Burke Made at Pretty Party in Larkins' Annex.**

Honoring their sister, Miss Beatrice McDevitt, whose marriage to Dennis F. Burke will be solemnized in the St. Aloysius Catholic church on Thanksgiving Day, Misses Gertrude and Berdette McDevitt entertained at an announcement bridge-dinner in Larkins' annex, Market street, Wednesday night.

The tables were decorated with fall flowers.

Following the dinner, vocal solos were rendered by Mrs. Emma Gerber, accompanied by Mrs. Lawrence McVey.

Ten tables of cards were in play. Trophies were awarded Miss Florence Stoney, Mrs. Lawrence McVey and Misses Jane Barker and Mary White. The bride-elect, who is a school teacher, is a daughter of Peter McDevitt, of Monroe street.

Mr. Burke, formerly of New Albany, Ind., is associated with the East Liverpool Sand company.

**Hostess to Vivache Club.**

Members of the Vivache club were entertained last evening at the home of Miss Helen Ankrim in Avondale street. Two tables of bridge were in play. Trophies were awarded Misses Elsie Pilgrim and Mildred Ferguson. Refreshments were served by the hostess, assisted by her sister, Miss Thelma Ankrim.

Miss Mildred Ferguson of Vine street will receive the club in two weeks.

**"Any day but that!"**

It's exasperating when men don't understand — and embarrassing when they do. Women who have learned of Midol don't have painful periods.

Midol is not a narcotic. It acts only on the organs affected. Perfectly safe, but swift; it brings complete comfort in five to seven minutes! No matter how hard a time you've always had, Midol will dispel every particle of pain. It is only common sense to use it, for it does nothing to hinder the normal, natural process of menstruation; but makes it painless.

Get Midol in the trim little case of aluminum, for purse or pocket; fifty cents, at any drug store.

**Children's Shoes Carefully Fitted**

One thing that we never stop emphasizing about our Children's Shoes is "careful fitting." Of course there must be durability—but while our good shoes give long wear, the fact that they're shaped right is still more important, for growing feet must have proper support.

Have your children's feet fitted by experienced, reliable salespeople.

**Brakes to Stop Suicides.**  
Confronted by figures showing that more than 2,000 persons commit suicide every year by throwing themselves in front of trains and trains in Japan, railway ministry officials believe they can substantially lessen the

number of such deaths by installing on electric cars a new type of brake from the United States. The present type requires 30 seconds to bring an electric car to a stop. The new type will do it in less than a third of that time.

### Many End Carver's Woes.

A novel dish which anchors the roast, Thanksgiving turkey or other bird to be carved, may end for all time the great mental distress of the carver who faces a tableful of critics

and always fears the worst. It has been invented in England. It consists of a disc of metal or other suitable substance with a projecting spike, which is made to unscrew. Two of these when fixed in the dish during manufacture and "fired" in the ordinary manner, are immovable, and meat or poultry placed on the spikes is prevented from slipping while being carved.

### Resin Replacing Rubber.

Manufacturers of rubber sundries and specialties in Germany are experiencing the stiffest kind of competition from the makers of synthetic resin which is used as a substitute for hard rubber. The processes were invented in the United States by an American firm which conducted extensive research work from 1910 to 1914. German rubber sundries are exported to all parts of the globe making a place for themselves by their low price in markets where American goods are popular by reason of their superior quality.

## "TEKE" BOUGH WINS BERTH WITH ILLINOIS FRESHMAN GRID SQUAD

The annual Ohio State-Illinois football games which have always been fraught with more than ordinary interest for followers of Buckeye gridiron activities in East Liverpool and vicinity, may carry on even deeper significance to Ceramic City football lovers within the next couple of years.

For, laboring among the virtually unknown and unheralded Freshman squad, the "scrubs," at these two Big Ten conference schools, are two East Liverpool boys who have shown so much ability in their first year in college football that, barring accidents or other unforeseen occurrences, it is entirely possible that on some balmy November afternoon not many years hence, their names may appear in the opposition lineups.

"Bough, tackle, Illinois—Larkins, center, Ohio State."

That's the angle that some day may be more important to fans here than the game itself.

Clifford "Teke" Bough, son of Mr. and Mrs. C. A. Bough, is a first string Freshman tackle at the University of Illinois and he has won the berth by ability and not by chance.

It was chance that started him on the third Freshman squad at Illinois. They were allotted to teams by the simple process of numbers, like drawing tickets from the hat, and it happened that Bough landed in the third flight.

One day there and he was looted to the second team. Another day in action with this group and he was

pushed up to the first team and there today he is successfully defending his position against the others.

With this outfit Bough has had plenty of opportunity to scrimmage with the Illinois varsity.

If he improves with age, it is difficult to see how they can keep him off the Illinois squad in a couple of years or so, despite the opposition that he'll face.

Bough and Larkins, it happens, both played on the same Blue and White eleven here, Bough graduating before Larkins and later prepping at Kiski where he starred in both football and basketball.

It is difficult to forget a little incident in the Salem game here a couple of years ago when Bough was playing right tackle for the East Liverpool eleven.

Back of Older, one of the best tackles Salem has ever developed, the Red and White backs found a weak spot on the left side of the Blue line and began to punch it for gains toward the close of the second quarter. When the teams lined up for the third period, the hole was gone and the gains stopped as if by magic. The result was achieved simply by shifting Bough over on the other side of the line where he could look Older in the eye.

Dick Larkins is getting the call frequently as first string center on the Ohio State Freshman eleven this season and his work is attracting the attention of coaches.

## Caldwell Is Ruled Out By Yale Board

NEW HAVEN, Conn., Nov. 11.—"I'm out," said Bruce Caldwell yesterday. Today, after the most momentous meeting in the history of the board of control of the Yale university athletic association, the quiet, steady-eyed boy from the Rhode Island mill town really was out.

He will not play against Princeton in the bowl tomorrow. Nor even again don that blue sweater with the numeral "48" tacked on its back.

## ATHLETICS LOSE GEORGIA PEACH

Ty Cobb, famous outfielder, has decided he will not play with the Athletics next year. There is a rumor Ty may hook up with the New York Giants. Photo shows Ty saying goodbye to his ex-boss, Connie Mack.

## Irish to be Clad In Green for Tilt With Army Eleven

SOUTH BEND, Ind., Nov. 11.—Coach Knute K. Rockne, of the Fighting Irish, today issued "high visibility" jerseys to each member of the three teams he is taking to New York for the Army-Notre Dame classic.

The color of the new jerseys is green, with stockings to match. These will be used in place of the traditional blue that has been used here for the past forty years.

In making this change, Rockne had in view easy visibility for his forward pass throwers and receivers, and also an aid to his ball carriers in picking out the interference at an instant's notice. Hence the Notre Dame shift to emerald.

Johnny Dunn, New Kensington, out-pointed Eddie Myers, Detroit (8).

## Unmarried Record Is Wilde Goal

Chester Faces Follansbee Tomorrow at Smith Field.

With Follansbee the biggest obstacle in their path, Coach Ray Wilde's Chester high school griders are driving on to a record that has never before been achieved by a Purple and Gold eleven—an unbeaten team for any one season.

The Chester eleven will tackle Follansbee tomorrow afternoon at 2:30 o'clock.

If Chester can step out to take the measure of the Brooke countians, the rest will be easy, for they have only to play New Cumberland at Chester in the remaining clash of the season and, in view of their record against other county elevens, the game with the county seaters should be an easy victory for Wilde's youngsters.

However, the Follansbee clash looms as the toughest battle on the Purple and Gold card and the result will be extremely doubtful until the final whistle.

"Stump" Frederick, ex-W. & J. athlete, has lined up a formidable aggregation at Follansbee this year, a team that has been winning right along while playing some of the best clubs in the valley. And if the Chester lads are successful in pulling out a victory, it will be one of their greatest achievements in recent years.

## Last Quarter Attacks Win For Bishops

Wesleyan Becomes Known for 'Come-back' Ability.

DELAWARE, O., Nov. 11.—Ohio Wesleyan followers are relying on the Battling Bishops to come from behind and win in the final quarter if necessary, when they meet Wittenberg at Springfield, Saturday, in the game which will decide whether or not Ohio Wesleyan is to tie for the Buckeye Athletic association championship, which it has held ever since that organization was formed.

The seventh inning is the official time for a baseball rally, but Ohio Wesleyan's rosters jump to their feet in the fourth quarter. The Bishops came from behind in the closing minutes of play to win from Wilmington and Wooster. They pushed over a last minute touchdown to break a 0 to 0 deadlock with Marshall, and scored in the fourth quarter to tie Syracuse, 6 to 6.

Coach Gauthier is relying not only upon the fact that the 1927 team is one of the greatest fighting teams he has ever turned out, but is banking also on the reserve strength which he has carefully developed at Ohio Wesleyan during the season. He was able to use twenty-five players in tying Syracuse and should use that many or more against Wittenberg. Ohio Wesleyan's superior reserve strength has been the deciding factor in most of the games played between these two elevens in recent years.

The Battling Bishops face a tough task against Wittenberg, however, which will require all of their fighting spirit and reserve power. On the basis of the games played against Miami by Wesleyan and Wittenberg, the Lutherans should beat the Bishops 58 to 7 Saturday, for Ohio Wesleyan lost to Miami 35 to 7 and Wittenberg in turn defeated Miami 23 to 9. Wittenberg has scored 96 points to their opponents 0 in the Ohio conference, while Ohio Wesleyan has scored only 28 points to its opponents 46.

## DOPED FOR 13-0 LOSS BY VALLEY PROPHETS

Local Mentor, However, Anticipating Game as Hard as Bellaire Encounter; Team and Fans Charter Special Car

Coach Joe Hurst's East Liverpool high school warriors will not steal surreptitiously into Martins Ferry tomorrow as they did to Bellaire a couple of weeks ago.

No indeed! Having felt the power of the Blue machine, to their regret, teams of the Ohio Valley association have the Hurstmen "spotted" now and, assaying them at their real value, will be prepared to avenge the former defeat.

The Martins Ferry ship will be cleared for action and all its big guns will be turned on the Blue in an attempt to achieve a two-fold objective—victory over East Liverpool and recovery of prestige lost in Ferry's defeat by Bellaire.

However, the Potters have gotten at least one good break to begin with.

Whelming "prophets" decree that the Hurstmen will lose by at least two touchdowns. They forecast a 13 to 0 victory for the Ferrymen. That's good news for East Liverpool. When they went to Bellaire they were very violently handled for a 26-0 setback by the Bellaire second team. However, the Bellaire seconds did not appear and neither did a Bellaire victory.

But, seeing that the Wheeling boys have cut down the count by about half, Hurst and his squad can expect a hard battle.

Seriously, though, the local eleven can not expect to find in Martins Ferry an easier team than they did at Bellaire purely because of the fact that Bellaire won by two touchdowns.

Martins Ferry gained through Bellaire's line and that's no easy task and, according to reports, Bellaire's two touchdowns were a trifling tainted. However, they counted six points each. The game may have been something like that in which Nebraska gained over 400 yards from scrimmage against Missouri and then was shut out.

# Notre Dame's National Title Chances Hinge On Army Game

## PITT FACES BIGGEST TEST IN NEBRASKANS

Yale-Princeton Clash Draws Nation-wide Interest; Chicago-Illinois; Penn State-N. Y. U. Among Important Contests.

By Davis J. Walsh.

NEW YORK, Nov. 11.—Notre Dame, far from having forfeited its chance at a national championship—in spite of lamentations to that effect by professional pall bearers—just because it got itself tied by another good football team, will move within a single victory of that title tomorrow or out of the portrait altogether. It will meet the Army at the Yankee stadium in one of three big intersectional games scheduled for the morrow and, by victory or defeat, either will proceed onward and upward or downward and outward.

The remaining two intersectional meetings will introduce a ton or so of cornhuskers from Nebraska to an unbeaten Pittsburgh team and the Navy to Michigan at Ann Arbor, the latter contest being important only because of its intersectional complexion. Both have taken in on the jowl this year and, usually once they do that, the merry populace starts looking the other way.

Yale-Princeton Tangle.

For example, of far more significance from a national standpoint is the Yale-Princeton game; the meeting way down south between Vanderbilt and undefeated eleven from the University of Tennessee the Big Ten run-in between Chicago and the front-running Illinois or even the game at Bellefonte, Pa., between Penn State and New York University, team that has been dropped down with one of the real eastern leaders.

It would be difficult to convince a Princeton man that the Tiger didn't rate national honors if it beats Yale tomorrow, for such a victory would conclude Princeton's season without either defeat or tie. Almost equally difficult would be an attempt to convince either a Yale or Princeton man that tomorrow's game will not decide the eastern championship, since Yale has been defeated only by Georgia and, following that game, has beaten all comers with an impressive show of strength.

They'll Have To Wait.

Yet, as I see it, neither team can claim a real national ranking until after tomorrow's returns are in and then only in the event that Notre Dame tops one with the profile. As I see it, the Irish must lose a game before they can lose the championship.

The Minnesota tie of last Saturday merely caused the Irish to lose caste; it didn't effect their title chances. The

tie, as a matter of fact and for the sake of an argument, was as good as a victory as far as Minnesota was concerned, for the Irish can point to their 19 to 6 victory over Indiana and Minnesota's 14 to 14 tie with the same team as sufficient evidence of their superiority over the Gophers. The fact that it merely is "paper evidence" means nothing; all you need in these national sweepstakes is plenty of room and the right to argue.

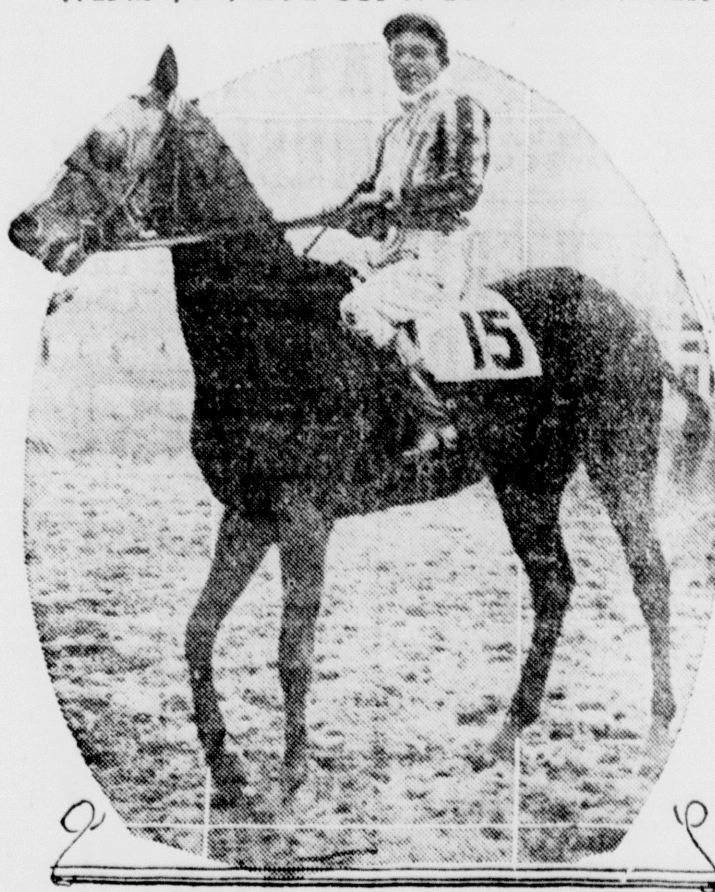

Anyhow, I am picking Notre Dame, tongue-lashed by Rockne into the proper frame of mind, to outscore the Army in a free-scoring game—provided the field is dry. In case of rain, it should narrow down to a fight in the forward lines and both of them are good. The Irish reserve strength probably is a trifle stronger, however.

The loss of Caldwell must hurt Yale, and, as to that, my hunch was Princeton, Caldwell or no Caldwell. It is the only sane way to pick this one, as the lines are almost equal and backfield tactics and possibilities almost parallel.

Pittsburgh, whose attack bogged absolutely down against W. and J. last week, will meet its biggest and probably its strongest opponent of the year in Nebraska and must get its running and passing reorganized to have a chance. However, you can't pick one like this, since there is no comparison possible between teams separated by thousands of miles of territory.

W. & J., like Pitt, is still unbeaten and should have something of a "breather" in Bucknell, although I have a hunch that life is far from extinct in the latter. Minnesota gets a breather in Drake and so do the two coast leaders, Stanford and Southern California, who meet Santa Clara and Colorado respectively. I would like to say the same for Missouri but one never can tell about Iowa State or apparently about Missouri, either.

WINS \$54,420 FOR WOMAN OWNER

Mrs. Payne Whitney's chestnut filly, Glade, with Jockey Morris in the saddle, won the eighth running of the rich Pimlico Futurity by finishing only inches ahead of Petee Wraah and Bateau. The race was worth \$54,520 to the winner.

## CHICAGO PROMOTER IN COUNTER DRIVE

Mullen, With "Invisible Alliance" With Tunney, Plans to Hit Back at Rickard in New York Fight.

By Gene Hoffman.

CHICAGO, Nov. 11.—That James C. Mullen, Chicago boxing promoter, may seek to even scores with Tex Rickard for poaching on Mullen's western preserves with the last Tunney-Dempsey fight, was hinted by the local promoter.

Mullen, whose much discussed "invisible alliance" with Gene Tunney is said to give him the whiphand over Rickard, strongly intimated in telegrams preceding him to New York,

that he is considering an invasion of the eastern metropolis with a view to staging the next Tunney bout there.

The Chicago promoter, accompanied by Jimmy Bronson, Tunney's chief second in his last fight, will leave here today for New York, where Mullen expects to close with Tunney for his next title defense—either here or in New York.

Bronson came here yesterday for a conference with Mullen. He said he had "talked things over" with Tunney and he is sure Mullen will land the next match.

"You know that contract Tex Rickard is talking so much about can be broken," Bronson declared. "I happen to know Tunney wants to fight for Mullen."

When Rickard invaded Chicago with his second Tunney-Dempsey show, despite the Illinois boxing law which bars "non-resident promoters," Mullen said nothing. But evidently he was doing a lot of thinking. The fight was endorsed here after the Illinois commissioners found a convenient answer to the question "when is a promoter not a promoter?"

Mullen reasons that a rule of this kind should work both ways. Rickard in Chicago? Why not Mullen in New York?

Mullen now boasts the backing of four Chicago millionaires. This, he argues, may not match Rickard's array of "big business men," but with the good will of Tunney behind him, Mullen avers he is in a position to dictate the destiny of a few big fights.

Frigh Restores Voice.

A commercial traveler who lost his voice through fright at Bristol, England, had it restored by a similar scare. While in the Bristol Zoo he was startled by a baboon which sprang against the bars of its cage toward him. As a result of the shock the man lost his voice completely. Doctors were unable to help him, but a few days later he recovered his speech when two speeding automobiles seemed about to crash near the spot where he stood.

## Stop Oberlin Passes Is Cry Of Boles' Men

Wooster Plans Defense for Opponents' Air Game.

WOOSTER, O., Nov. 11.—"Stop Oberlin's forward passes" is the cry at Wooster this week as Wooster prepares for the game here Saturday. Coach Boles is emphasizing two things, to rush the passer and for the backs to be alert at all times.

This game, which will be the first official Dads' day at Wooster, will be the final home game for six of this year's football squad. Captain Pete Blough at quarterback, Stoll at tackle, Joliff at end and Lehman at halfback are the regulars. Swigart, guard and Cruikshank, will make their last appearance, too.

It is still a big question whether or not Blough will be able to play. His injured back has kept him from practice and kept him out of the 9 to 1 win over Reserve last week. Blough donned his grid togs Tuesday for the first time since he was injured but was unable to do any kind of work.

Hard scrimmage for the week ended with Wednesday evening's practice and for Thursday and Friday Coach Boles planned light workouts to keep his men in shape for the game Saturday.

## Mount Mentor Fears Lowly Kenyon Squad

Thorpe Warns Purple Against Over-confidence.

ALLIANCE, O., Nov. 11.—Coach Thorpe actually fears Kenyon's record as he sends the Mount Union college football squad through the workouts this week in preparation for the Kenyon and Mount Union game at Alliance, Saturday.

Kenyon has won only one game this season, and that at the expense of Marietta last Saturday. It was such a record that Kenyon had in 1924 when they handed the Mount Union team a

## COUNTY CAGE LOOP WILL RE-ORGANIZE

Independent Basketball Pilots to Take Initial Steps at Meeting Monday in Lisbon; Seek Eight-club Circuit.

First definite steps toward the re-organization of the Columbiana County Amateur Basketball League will probably be taken at a meeting of club owners and managers to be held on Monday night in the Hostetter hotel, Lisbon.

Pilots Braves

Jack Slattery, Boston College coach and Boston Braves' scout, has signed to manage the Boston National league baseball team during the 1928 season.

According to present indications virtually the same clubs that finished the season last year, with the possible addition of Wellsville and East Palestine, who dropped out near mid-season, will be back in the fold for the 1927-28 campaign, providing managers are able to carry out plans discussed at last Sunday's initial "get together" conference.

Five teams have already indicated their willingness to start the circuit again, including the East Liverpool Elks, Salineville, Lisbon, Columbian and the Salem Mullins club.

The Salem team is being reorganized this year also and, backed by the Mullins corporation and under new management, has at least indicated its interest in the project.

Damascus was not represented at last Sunday's session but will probably be in line at Monday's session. Negotiations have also been started by President Charles "Dim" Zange, of East Liverpool, to bring in the East Palestine and Wellsville quints.

While nothing definite has been done by the league, managers feel that the ground work has been laid for reorganization plans at Monday's meeting.

The local Elks' club will be represented by Ray Adam, business manager of last year's organization.

## COUNCIL WILL PASS ON VETO BY MAYOR FOGO

Franchise Ordinance Tabled and Later Pigeon-holed.

### 50-YEAR GRANT

Action of Legislative Assembly Tuesday is Problematical.

Definite action on the Ohio Power company franchise ordinance, which has been in the hands of council for almost two months, is expected next Tuesday night when Wellsville solons convene for their semi-monthly session.

Passed on three consecutive readings by council, then vetoed by Mayor W. L. Fogo, the ordinance was tabled for another two weeks, the latter period taking it over election day.

Mayor Fogo objected to the measure on the grounds that a 50-year franchise covered too many years.

The power company points out that under a long-term franchise it will be able to improve its service in many ways.

It is entirely possible, according to reports, that opposition to the ordinance from sources other than the chief executive's office will be revealed when solons decide to take final action on the measure.

What action council will take is problematical. It can either let the veto stand or attempt to vote the ordinance over the veto.

American Education Week Observance Closes.

Armistice day observances were held throughout the schools here this morning.

Public speaking class of the high school conducted a program of patriotic addresses and exercises in honor of the occasion, while students at MacDonald school enacted a similar program.

Each class room in the elementary department gave individual programs.

Approximately \$35 was subscribed by the elementary department of the local schools in the Junior Red Cross campaign this week.

American education week observance in the high school came to a close today. The observance was conducted through the English classes with appropriate programs each day.

## INDOOR PICNIC IS SUCCESS

Women of Episcopal Church Sponsor Unique Event.

With more than 80 in attendance at the dinner and that number augmented by a score or more for the entertainment that followed, the indoor picnic given last night in the Episcopal church parish house, Eleventh and Center streets, under auspices of the Woman's auxiliary, was one of the most successful events of its kind held by the organization in recent years.

Music, races, contests and other features comprised the program of entertainment that followed the dinner. Prizes were won by Mrs. Arthur Bedford in the far women's race; William Nixon, in the far men's race; Gus Stewart in the balloon and peanut races; J. Baughman in the sack race; Mrs. Davis in the girls' race; while Mrs. Maria Hand and Mrs. Harry Bedford "salke-walked" to a decision over the other competitors in this event.

Mrs. J. E. Jobling was chairman of the committee in charge of the picnic.

## Salineville Plans Festival Program

Ticket Sale for Fall Event, Beginning November 24, Gets Under Way.

The committee in charge of the ticket sale for the Fall Festival to be held in Salineville Nov. 24-25-26 and 29, have elected S. A. Hart as chairman and named the following captains: Mrs. S. B. Larkins, Mrs. Warren Hill, Mrs. John Grant, Mrs. George Williams, Mrs. Paul Reeves, Mrs. Frank Schubert, Mrs. W. D. Holmes, Mrs. Phil Robush, Miss Nell Toban and Miss Elizabeth Maple.

These ten captains will select five persons to aid them in selling tickets. The work of selling tickets will begin the week of Nov. 14. Adult tickets will sell for \$2.00, reserve seat holders to have same seat for the four numbers, and the juvenile tickets will sell for \$1.00.

Ladies Night was observed by the local Kiwanis club in the dining room of the United Presbyterian church, Wednesday evening. Wilbur Newman of East Liverpool, entertained with magical tricks. Wilbur Glean, also from East Liverpool, sang a number of songs. A male quartet, composed of Allen Maple, William Maple, Frank Schubert and Herbert Hendrickson, sang several numbers. During the social hour, games and stunts were diversions.

Dinner was served by the ladies of the Senior Missionary society of the church.

Mrs. Louise Bowman of Canton and Mrs. Rebecca C. Small of East Liverpool, were visiting friends in and near Monroeville last week.

Mr. and Mrs. N. B. Haverfield have accepted positions with the Club Alumnae company of Chicago.

Mrs. Mattie Everett of Foundry Hill is confined to her room with sickness. The Senior Missionary society of the Presbyterian church was entertained in the home of Mrs. William Heatherington Wednesday afternoon.

Devotions were led by Mrs. Hannah Hutson; home topic, "Southern Mountaineers," by Mrs. Edna Collins; and the Foreign topic by Mrs. Miller Henderson. This was the annual thank-offering service. The amount received

was over \$17. Twelve members of the society were present.

"Thanksgiving in Slam," was read by Mrs. Hutson.

Lunch was served by the hostess, assisted by her daughter, Mrs. Charles Knox.

The Young Men's Bible class of the Presbyterian church was entertained in the home of Walter Henderson on Water street, Tuesday evening. After the devotional services, the business session was in charge of the president, R. S. Patterson. The class is having the Apollo chorus from East Liverpool put on a concert Nov. 18. The following officers were elected for the new year: President, Allen Maple; vice president, Walter Henderson; secretary, Harry Webb; treasurer, Paul James. During the social hour contests and music were diversions. Mrs. Henderson served lunch.

## MADE MEMBER IN HONOR CLUB

Miss Gwendolyn O'Hara Joins L'Alliance Francaise.

Membership in L'Alliance Francaise, a national honorary French club, has been awarded Miss Gwendolyn O'Hara, a daughter of Mr. and Mrs. D. T. O'Hara, of Broadway, a sophomore at Ohio University, Athens.

Membership is conferred only on students who attain perfect grades in French during the previous year of their college work and, in order to qualify finally, it is necessary for the student to deliver an oration entirely in French. Although the youngest student enrolled, Miss O'Hara was awarded grades among the highest in the class.

A reception at the home of the head of the French department of Ohio U., followed the conferring of the membership.

As a result, there will be no noon luncheon and meeting here on Tuesday, the regular meeting day for the local club.

## ORANGE GRID SQUAD READY FOR LISBON

Clash With County Seat Aggregation Saturday.

KICK-OFF AT 2:30

Visitors to Show Light But Fast and Flashy Squad.

Although favored to win in their game tomorrow afternoon at Nicholson Field, the Orange and Black grid-ders of the local high school expect to conserve their energies to as great an extent as possible for the final clash on the schedule, the Thanksgiving game with East Liverpool.

The Orange backfield has been pretty well bruised up in the last several games and right now is far from the peak form which will be demanded in the Turkey day encounter.

Neither Halfback Calloun nor Fullback and Captain Irons got into the game last Saturday at Dover and, if possible, both will be saved in the Lisbon game.

The county seat aggregation, however, is no pushover and probably will give the Wellsville eleven a battle. The visitors will show a light, but fast and flashy squad that is dangerous every minute of the game.

The starting time for the Saturday game has been moved up a half-hour, the kick-off being scheduled for 2:30.

# WASHINGTON STEWART'S LETTER.

By Charles P. Stewart.

WASHINGTON, Nov. 11.—Secretary William M. Jardine again denies that he's going to resign—right away. He says he intends to stay on the job through the next session of congress anyway.

W. M. JARDINE.

However, if Secretary Jardine had known, two and a half years ago, some of the things he must know today, we're at liberty to wonder if ever he'd have been minister of agriculture at all. Only a few days after he was sworn in, I had a talk with him. Br'er Jardine has a vein of poetry running through him. He said he was aware the farmers were up against it. Yet, he pointed out, they have their compensations. They live close to nature. The greenery all around 'em is their greenery. The new-mown smells are their smells. The meadowlark overhead is their lark. When it snows, in winter, it's their snow.

THIS kind of stuff, the newly-appointed secretary remarked, has a value that can't be reckoned in cash, and he intimated that he had an idea it might be possible to make the farmer see it, and include it in their inventories.

I distinctly recall that I questioned this in my own mind.

Even if the farmers did as the secretary recommended, I couldn't see how they were going to apply it on their mortgages.

Senators from some of the western states, like Nye and Frazier, Norris, Brookhart and Shipstead, have since told me that they couldn't solve this problem either, and now they say they're convinced the reason was that

nobody could solve it—it was a puzzle with no answer at all.

JARDINE simply was asked to perform the impossible, and he didn't perform it.

In a way, for an agriculturist who has spent nearly his whole life as a college professor, he's done pretty well.

No critic denies that he has tried hard.

WHEN he was appointed, two courses were open to him, in order to go down in history as the greatest man who ever held his portfolio.

1. Actually to make agriculture prosper like the green bay tree.

2. To play such slick politics that the farmers would acclaim him, regardless of concrete results.

He certainly hasn't filled prescription No. 1, perhaps because it was beyond human power, under existing conditions. Not being anything of a politician, he hasn't filled prescription No. 2.

And yet, though there's been a persistent undercurrent of grumbling, nobody's demanding that he be brought out and shot at sunrise, which is saying quite a little, considering the corn belt's general frame of mind.

AS Jardine's successors, ex-Senator Dixon of Montana, ex-Governor Carey of Wyoming and Secretary Mohler of the Kansas Board of Agriculture are chiefly suggested.

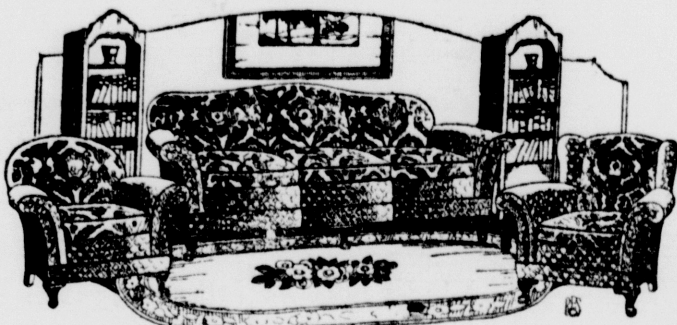

These are the identical names which were chiefly mentioned when Jardine went in.

The choice doesn't seem to be very wide.

# The Way of the World

BY GROVE PATTERSON

## EVOLUTION OF LAUGHTER.

Showing how men have advanced in one way at least, Centuries ago physical deformity was laughed at. A cripple was the butt of a joke. Nobody today laughs at a cripple. But it is interesting to note how we have clung to the idea. We laugh when a man falls down stairs in a show—or on the ice, for that matter, so long as

A Johnson's Red Cross Kidney Plaster gives the support needed by weakened, sore muscles. Provides a continuous massage, thus relieving congestion and stimulating circulation. Quits pain and restores free use of muscles. All druggists.

**Weak Back Strengthened Quickly**

he isn't seriously hurt. We laugh when man is humiliated by the wind which blows off his hat. We still laugh at discomfiture. That is a step beyond laughing at natural infirmities. As man becomes more civilized he will not even laugh at temporary misfortune. The evolution of man's good nature is the evolution of his laughter.

## COLLECTING DINES.

Did you ever try dime collecting? A year ago an Iowa woman started out to make ninety cents do a dollar's work. The other dime she put in a bank. The dime appealed to her. It was easy. Her enthusiasm grew. At the end of the year she had saved 1,800 dimes. That's a good game. And that's the thrill.

## FRIENDSHIP.

Ibsen, very thoughtful Norwegian, once said that it is a pity that great men can never really have friends. Even men as wise as Ibsen can be wrong. There is no greatness which is so great that there is no place for friendship. There are men who are intellectually so much above the most of their fellows that they are out of sympathy with many ideas that are commonly accepted. But the greatest men can make the truest friends.

## THE WAY OF MOTHERS.

A very young man with bell-bottomed trousers and city hair confessed in a certain city police court the other day that he had struck his mother, after quarreling with her. After the judge had properly sentenced him to jail, the plea of the lad's mother saved him from a cell. There was quite a story about this incident in the newspapers. Strange that there should have been, for there was nothing so unusual about it. A thousand mothers have plead for a thousand sons who have wronged them. A thousand mothers will do it again. It is love without hope of reward. Somebody has said that it is the way of life. It is not the way of life but it is the way of mothers.

Monks of Europe are taking up ten nis.

# Los Angeles Judge for 5-Year Trial Marriages

Burnell Believes It's the Only Solution of U. S. Divorce Problem

Trial marriage! Sensational novelists and publicity seekers of a radical nature have often advocated such a system—but when it's urged by a superior court judge, it demands attention. Judge Charles S. Burnell of Los Angeles has come out flat-footed for the scheme.

He insists that a five-year "trial" term will prevent perjury and "legal subterfuge" in obtaining divorces and "making liars and perjurers out of thousands of persons who want nothing more than to be allowed to continue their lives alone."

His plan is: Marriage contracted for a period of five years, renewable by mutual consent at the end of that time for a similar period, or— Terminated at the end of the five-year term by the desire of ONE party or both, and terminated during a five-year period only because of statutory trans-

Judge Charles S. Burnell (International Illustrated News)

gression or extreme cruelty. If a couple, desiring to separate at the end of five years, has children or has amassed property, these questions would be settled by court decision.

Has Judge Burnell solved the problem?

# Official Who Wrote Warrant for Kaiser Dies in Poverty

PRAGUE.—Victim of a practical joke which made him famous throughout the world a quarter century ago, Gustav Wejrik, who achieved the unique distinction of having issued a warrant for the arrest of Kaiser Wilhelm II, when the Kaiser was at the height of his glory, has died here, poverty stricken and friendless. Wejrik was laughed out of his job as police inspector of the city of Prague and editor in chief of the official government gazette when a witty stranger induced him to make out a warrant for the arrest of "One Wilhelm Kaiser, murderer, robber, and generally known as a gossiping, garrulous wind bag."

Completely taken in by the practical joker, Wejrik issued the warrant with a detailed description of "Wilhelm Kaiser" supplied by the complaining citizen. The description fit-

ted Kaiser Wilhelm II to the last iota. Wejrik never noticed what he had done until a German government police official, reading the Australian government gazette, noticed the item and caught on to the joke.

Theirson the German chancellor complained to the Austrian government which was constrained to apologize. Wejrik was discharged to the accompaniment of the laughter of Central Europe. He withdrew into an obscurity from which only the news of his death availed to rescue him.

# Nerves Unstrung!

"I can recommend Wheeler's Nerve Vita-Laxer highly for what it has done for me," writes Seward Evans, Cranford, N.J. "I was nervous and could not sleep, had not worked for four years. Now I am able to do light work. Can sleep at night and feel like a different person." This wonderful medicine for sleepless, nervous people does not contain alcohol, chloral, morphine or any habit-forming drug. The J. W. Brant Co., Dept. 67, Albion, Mich., will send you a large trial bottle free, for ten cents to pay cost of mailing and you can get the regular bottle of Wheeler's Nerve Vita-Laxer in most drug stores at \$1.10 a bottle.

# Richest Beauty Style that catches the eye

Nash STYLE in body design is of extreme distinction—in the best of taste.

Nash cars, inside and out, are the SMARTEST looking you'll see on the street.

Fashionably low to the road, on small wheels, and finished in beautiful color harmonies, they capture the eye and admiration instantly.

The big Advanced Six 4-Door Sedan pictured above is offered in two different color combinations, at no extra cost.

Window and door panels, instrument board and its crown panel, all are richly done in walnut effect. There are shirred door pockets, van-

ity case and smoking set, leather mounted.

Finely tailored, form-fitting cushions of superb button-tufted mohair contribute to its restful luxury.

Nash powers this car with the big 7-bearing motor, with clutch, flywheel and crankshaft integrally balanced. That prevents vibration anywhere through the full range of speed and power.

Come DRIVE it today. Try its special EASY-steering mechanism. Test its springs of secret process alloy steel that make Nash the smoothest riding car you ever sat in. Come in at once and we'll talk SPECIAL terms on the car you're still driving.

PEOPLE ARE PLEASED WITH OUR PRICES

Blonde to Brunette

The dark-haired ladies striving heroically along the path of peroxide to become blondes, must envy fair Esther Ralston. Here is Esther, a real blonde in her own right, but who has turned brunette, via a wig, for her next movie role.

Haskin's Letter

(Continued from Page Four)

Ionian, after all his experiments, arrived home using a high test gas, but it was not the one he had formerly used and he was by no means certain that he had solved the problem. The only thing he had settled definitely in his own mind was that he would do no more experimenting, and the chances are that he will stick to that decision—until some one tells him an alluring or convincing story about some other kind of gas!

There is perhaps more intense debate afloat the wisdom of using the gas that has been doped with tetraethyl lead than any other phase of the fuel problem. In the first place, there is not a great deal of dependable information on the subject, for the gas is not as yet widely used, and in the second place a great deal of misinformation has been circulated, and innumerable rumors have been floated as to the alleged deadliness of the fuel.

It is generally conceded that this fuel will work wonders in many ways, notably in the direction of high compression without knocking, but it is likewise contended by many who claim to know that its use for any considerable length of time will ruin the average engine.

As to the dangers attending its use, there is no doubt as to the poisonous nature of tetraethyl lead, but many of the sensational stories that have been told of the deaths caused by the gas are vigorously denied. For instance, only the other day a stalled engine exploded when the hood was raised, and several people were killed or injured. It was a mysterious accident, and "doped gas" was as good a guess as any in the minds of some people so they proceeded to circulate the guess as the explanation of the mystery. There was absolutely no basis for such a report, it is stated. Undoubtedly the gas has to be handled carefully, but it is claimed all the dangers incident to its use have been or are being eliminated.

A veteran service station man who sells half a dozen grades or brands of gas says he has tried them all and has never been able to see very much difference in the results obtained. His best advice, he says, is to experiment a little until you find a gas that seems to work well in your engine and then stick to it.

Failing to find a satisfactory grade or brand, he adds, you might follow the example of the man who drove up to his station recently and had his tank filled with a mixture of three different kinds of gas.

The best cure for that lonesome feeling that we know of is to let the report become circulated that you are a moonshiner.—Zanesville Signal.

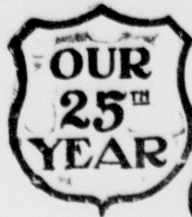

TIED NERVE "FAGGED" MEN AND WOMEN

Should Make This Easy Test

If you are weak, tired, rundown and nervous—an easy victim of despondency, "blues," worry and that "Don't give a hang" feeling—you should make this simple inexpensive test today—sure!

# Sally's Shoulders

by BEATRICE BURTON, Author of "HER MAN," "HONEY LOU," "THE HOLLYWOOD GIRL," etc.

## CHAPTER XVI.

Sally thought that her father was dead when she flung open the door of his room. He was lying on the floor, and his hands and face were the same shade as the bathrobe of gray Turkish twilling that was wrapped around him.

"He must have tried to get out of bed by himself," she wailed aloud, although there was no one in the darkened room with her. Mrs. Jerome, who avoided all unpleasant things as she would have avoided the black plague, had not followed her at the sound of that heavy fall.

She had stayed behind in the hall, waiting for Sally to go and find out what had happened, all by herself.

Sally lifted her father to the bed. He was singularly light and easy for her to pick up in her strong, young arms.

"Poor Dad," thought Sally, and as she held him, she suddenly felt closer to him than ever she had since the

eral orders in her high-pitched voice. Upstairs the baby was waiting for no reason at all except that it was a baby and got its exercise by crying with all its might.

The front door opened and Millie came flying into the house, bringing the freshness of the rain with her. "She banged the door behind her and called out: 'Well, I've had to quit ANOTHER job!' In a loud, shrill voice before she caught sight of the doctor, who was halfway up the stairs.

He stopped, frowning down at her. Then he turned to Sally, who was just behind him.

"I asked you people to keep Mr. Jerome perfectly quiet," he said in that terrifying, solemn voice that doctors have. "Is this the way you do it?" He was plainly angry at the way his orders had not been carried out.

Scowling and shaking his head, he went into the sick room, smartly closing the door in Sally's face.

"I think I'll go with them, too," Millie said, "if you'll lend me the money."

long-ago days when he had been a gay and chipper young man who had taken her to picture shows and the circus.

It seemed to her that she had forgotten how much she had loved him, all through those years, when he had left all of them alone to shift for themselves. But now it came surging back to her—that love for him. The love she had had for him when she was 9 years old.

She was crying softly as she picked up the telephone on the stand beside the bed, and gave Dr. Ambleside's number.

While she was speaking to him her father's eyelids fluttered up and he looked at her. His hands moved, and he looked at her. His hands moved, and he looked at her. His hands moved, and he looked at her.

"Guess I must have got a little faint," he murmured thickly as she hung up the receiver and turned to him. "I thought I'd get up to get a drink of water. The thermos bottle was empty."

"My fault," Sally blamed herself. It was the first time she had forgotten to keep the bottle filled with the special mineral water that Dr. Ambleside had ordered for Mr. Jerome.

But, somehow, it was easy to forget important things lately in The House by the Side of the Road. For there were so many, many things for Sally to do, and all of them important ones. . . . The baby to be fed, bathed and tenderly watched from morning till night. Mr. Jerome to be cared for almost as carefully as the baby had to be cared for. Mrs. Jerome to be waited on, hand, foot and finger, all day long.

"And besides that, there's the down stairs work—and the dancing," thought Sally, hurrying down to the kitchen with the empty thermos bottle in her hands.

Today there had been an extra job. Aunt Em had decided she ought to have a new costume for the new dance—the Savannah Stomp. And so Sally had "thrown together" a gay gypsy costume of cheap, bright-colored calico, all sewed with little bells. She had planned to stitch it neatly late that night, when she could carry the electric sewing machine down into the dining room, where the noise of it would disturb no one.

It took hard figuring these days to do all the things that had to be done. "And then," said Sally to herself, "I never get caught up somehow."

With the bottle filled she rushed upstairs to give her father his drink of water, and to reassure her mother that he was all right.

But Sally, herself, was not at all sure that he was all right. "He was so quiet and listless, somehow, as if he did not care whether he was alive or not."

For days she had been growing more worried about him, and her worry was reflected in her mirror-like face when she opened the door to Dr. Ambleside at 6 o'clock.

In the restaurant the three musicians who constituted Aunt Em's "jazz band" were tuning up. Aunt Em was giving Hilda, the waitress sev-

## A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

to put on. "Why did you quit your job?" she asked, as she watched Millie slip into the apron and brush the wide, soft waves of golden hair down over her ears. Before Millie had time to answer

there came a sharp knock on the door, and then Dr. Ambleside's voice asking for Sally. Sally went into the hall. "Is there any place in this house where I can have two minutes' talk with you?" he asked, still frowning.

Sally led him down the stairs and down the hall to Aunt Em's tiny office. It was dark and empty at this time of day. They went in, and Sally turned on the desk lamp and closed the door. (Continued on Page 24)

# Sally's Shoulders

(Continued from Page 23)

"Now, then," began the doctor, "your father has got to have peace and quiet, as I've been telling you. He can't get them in this house, evidently. He's been through a hard sickness, and he's got to be built up by the right kind of food and quiet and rest. It's too bad he can't get away somewhere—on a sea voyage,

for instance. Not now, of course, but in a couple of weeks, when he's stronger. Or to the mountains."

Sally's blue eyes were wide and thoughtful as she took in his words. "Sea Voyage . . . mountains. They were just words to her, poor as she always had been. And now here was Dr. Ambleside, actually telling her that perhaps they were the things that would cure her father of the bodily ills that had brought him, so listless and lifeless, to the bed upstairs.

"A sea voyage . . . mountains . . . money," she said to herself. "Money. . . Everything comes back to money, money, money." It was the root, not

only of all evil, as the proverb said, but of many other things besides. Health and happiness, for instance.

"Could you go with him?" Dr. Ambleside was asking now. He had taken care of Mrs. Jerome for so many years that he knew how useless and helpless she would be as a nurse for a sick man.

Sally shook her head. "I couldn't," she faltered. "There's so much to do here. I couldn't. But I think I could get the money together for Mother and him to go away some- where. In two weeks or so, you say?"

She had only the faintest notion as to where she was going to get the money. That vague notion had to do

with Aunt Emily and the family album, where Aunt Emily hid some of her savings.

"And lately we've really been making money," Sally said to herself on her way upstairs, after the doctor had gone. "Maybe Aunt Em will advance some, and let me pay it back a little at a time."

She opened the door of her room and went in. Millie was still standing beside the dresser, fingering the perfume bottles, and lipsticks and eyebrow pencils that covered her side of the marble top. She had just finished making up her face, and it was as artificial looking as a French doll's when she looked up at Sally.

"What did the old pill shooter want?" she asked in her liquid drawl. "Oh, he says Dad's got to get away to the mountains or for an ocean voyage or something like that," answered Sally, picking up the parts of her new gypsy costume to hang them away in the clothes closet.

"What's that stuff?" asked Millie, brightly, swinging around from the mirror. The new dress you're making to dance in?" Millie was always more interested in new clothes than she was in anything else—except new men.

"Cute!" she cried admiringly, holding up the gay flowered skirt, with its edge of little gilt bells. "Darling! Well, what are you going to do about Dad? You told the doctor we haven't any money for trips like that, didn't you? Dad ought to be in the hospital, anyway. It's such a bother having him around the house. We have to be so quiet, and I can't use the extension in his room the way I used to."

Before Mr. Jerome had come home Millie had done most of her very private telephoning from the extension in that room. And she missed it.

"Oh, I think I can get Aunt Em to lend us enough money to send Dad and Mother somewhere," Sally answered. "It's too bad I can't go along, too. Dad needs a nurse, and Mother's not very strong."

"Well, I think I'll just go with them, then!" Millie broke in abruptly. "If you'll lend me the money when you get some from Aunt Em, I've had a row with Davy and I'm not going to work in the same office with him anymore, anyhow! So I might just as well go along with the folks. I'm a wonderful nurse!"

She had never nursed so much as a single sick kitten in all her life, let alone a human being! But Sally knew that, in some way, Millie would manage to go along as Mr. Jerome's "nurse." Millie always went where she wanted to go, just as she always got what she wanted, and did what she wanted to do.

## The beauty killer

HERE, it strikes a beautiful woman—and in a few years her charm will have fled. . . Here, it grips a promising man—soon he will sink, with blighted prospects, into obscurity.

What a deadly affliction constipation is! Thief of youth. Robber of strength. Evil forerunner of disease and misery! It destroys health! It kills beauty!

What a blessing that there is relief from this dreadful scourge! Kellogg's ALL-BRAN is guaranteed to relieve constipation—promptly.

Why ALL-BRAN alone is effective

ALL-BRAN has "bulk." This bulk absorbs moisture and carries it through the intestines, gently disintegrating them—cleansing, eliminating poisonous wastes. How different from part-bran products which contains so little bulk that there is

**Kellogg's**  
ALL-BRAN

hardly enough to have any effect at all. That is why doctors recommend ALL-BRAN. Because ALL-BRAN is 100% bran.

Different from habit-forming drugs

And contrast ALL-BRAN with dangerous drugs and pills—which become useless unless the dose is constantly increased. ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its nut-like flavor. Serve it with other cereals. In soups. Recipes on every package.

Don't risk a part-bran substitute. Insist on genuine Kellogg's—the original ALL-BRAN. Sold by all grocers. Served at hotels, restaurants and cafeterias. On diners. Made by the Kellogg Company in Battle Creek, Mich. Write for free "Treatise on Constipation."

A daring American flier dropped out of the night on Le Bourget—and won the adulation of the world.

An inspired American golfer conquered famed St. Andrews—and received the applause of kings.

A new American motor car swept into the spotlight less than four months ago—and encountered a public reception once undreamed-of . . . A brilliant new car: vivid, poised, distinguished, staunch—the Oakland All-American Six. A car with all those qualities Americans admire . . . a car on which America has already bestowed success.

## W. B. LOUTHAN GETS PATENT

Invention of Die and Ejector is Recognized.

After waiting nearly a year, William B. Louthan, of the Louthan Manufacturing company, today was awarded a patent for a die and ejector for making clay heating elements, according to announcement by the United States patent office in Washington.

He filed his patent application November 20, 1926, and there has been no assignment of the patent.

The patent office officially describes the invention as follows:

"Means for making clay heating elements comprising two female dies disposed in parallel relation, one of said dies being hinged to the other whereby one die may be turned over into or out of confronting relation to the other, both of said dies having their side walls formed with aligning notches, a shaft extending parallel to said dies and having radially extending fingers adapted to be disposed in said notches and across the two dies when the dies are disposed in confronting relation, and male dies adapted to coact with the female dies to initially produce two halves of the completed element."

### AFTER PERIOD OF TORTURE, MAN FINDS RELIEF FROM ITCHING

'kin now entirely healed

Charlestown (Boston), Mass., Dec. 18:—"Last June I had an itching irritation on my back, principally between the shoulders, and also on the back of my hands, extending to the shoulders. The skin was apparently clear of any disorder, but the itching was intense. After a vigorous rubbing with a Turkish towel there would appear two spots, about an inch apart, which bled from the effects of the rubbing. I used Bay Rum and other lotions before I tried your Resinol Ointment. At bedtime my back received a thorough washing with Resinol Soap and a very generous application of Ointment, after which I would rest quite comfortably until about two or three in the morning, when I received another application. A third upon arising would be enough to make me feel at ease during the day. Thanks to the above treatment, the trouble is now entirely healed." (Signed) John W. Matthews, 1 Crystal Place.

Divorce Suit Instituted.

In the divorce petition filed by Harry Wedgewood against his wife, Anna Wedgewood, said to be now residing at Fredonia, N. Y., the charge of infidelity is made. The couple were married Oct. 11, 1922. Attorney James E. Davis of East End, filed the petition for the plaintiff.

Women Like Flying School.

Women have taken to the idea of the exclusively feminine flying school which was recently opened just outside of Milan, Italy, by the Aero Club of Milan. There were five candidates the opening day, and since then the number of pupils has greatly increased. All the instructors are kept busy. The first of the 25 lessons consists in a trial flight as a passenger, and the pupil is thoroughly coached until she is able to fly alone in windy weather when atmospheric conditions are considered to be not favorable. Candidates must be at least 18 years old, must pass a severe medical test, and must have permission of both parents, or if married, of the husband, to fly.

## BUILD NEW CAR TO HAVE SPEED OF 250 M. P. H.

Designer of Sunbeam  
Offers Swifter  
Model.

### DUEL GOES ON

Plan Found to Over-  
come Resistance of  
Strong Wind.

LONDON, Nov. 11.—The latest stage in the speed duel between the United States and Great Britain is the plan for the construction of a British car capable of a speed of 250 miles per hour.

new machine which he hopes will preserve the record for Britain.

"I intended to keep the details of my new car secret," said Coatalen, "but now that news of the American car has leaked out there is no longer any need for mystery. I have known for some time that the United States cherished an urgent desire to beat our record."

Plans New Sunbeam.  
"I have accepted the challenge, and have passed plans for a new Sunbeam car which I believe will travel at a speed of 250 miles per hour. This may seem optimistic, but our 1,000 h. p. car was designed to do 200 miles per hour, and achieved it. The new car will have two engines each of 20 h. p. rating, but with a probable power output of 600 h. p."

"Wind difficulty is, of course, the great difficulty. We have to reduce this to a minimum. For this purpose a close study has been made of the British seaplane which won the Schneider Trophy for Britain."

"All parts of the car, such as springs, brakes and wheels, will be enclosed within a pear-shaped body. There will be no radiator in the engine. We shall employ a system of steam cooling—condensation—which should be sufficient as the car will be in action only for a few minutes."

"The engines will not be fore and aft as they were in the 1000 h. p. Sunbeam. They will be side by side at

### NIPPON'S GIFT TO UNITED STATES

Bringing Japan's message of appreciation for more than 10,000 dolls sent last year by American children to Japanese girls for the annual Doll Festival, 58 messengers of friendship will leave Yokohama soon on their transpacific voyage, arriving in San Francisco Nov. 25. Above, Japanese women putting the finishing touches on the dolls whose clothes are made of the finest and most costly materials. The gifts were made possible by donations of a yen each by Japanese school children.

the front of the chassis and their drive will be synchronized.

Ready By Spring.  
"I cannot conceive the possibility of chains standing up to this great speed so I am employing a propeller shaft transmission."

"The car, I hope, will be ready in the spring, when it will undergo a

modified trial in England before being shipped to the United States."

It is understood that no expense will be spared in meeting Frank Lockhart's challenge to the British record. As for the driver, it is believed that Major Segrave having practically abandoned racing, K. Lee Guinness, one of the greatest of British motor racing drivers will be secured. He retired from racing some years ago, but he is prepared to take on this new big adventure.

#### Novelist's Daughter Hurt.

Mary Hughes, daughter of the author of "Tom Brown's Schooldays," is suffering from injuries recently received when knocked down by a motorcycle in London. She is a member of the Stepney Borough Council. In addition to being an author, her father was a social crusader in company with Kingsley, author of Hypatia, and she recalls that when she was a mite of a girl he sent her to live with and for the people. For many years she lived in a tiny room behind the Whitechapel road. Lately she has been conducting a social club.

# RIN-TIN-TIN IN SCREEN HIT

Dog Scores in "Jaws of Steel," at American.

Rin-Tin-Tin, most popular dog in the world is now packing the American theatre with enthusiastic audiences—cheering, whistling, hand-clapping, stamping, uproarious audiences. Many a human star would give half of his salary to create the ecstasy in grown-ups, that Rinty does in the

breasts of Young America, and not all of Young America is without gray hair and furrowed brows. What has age to do, when Rin-Tin-Tin hurries through space, swims roaring rivers or rescues his friends from the menace of the bad men.  
In "Jaws of Steel" Rinty is shown first as the puppy pet of a little girl, going with her parents, by flivver, across the desert to prospect for gold. Rinty's son plays this part, and topples over into the sand, as the flivver joggles on. It is undeniably Rinty himself, who, grown fierce and fanged, befriends the family later, and saves them from evil. Rinty is glorious as the hero of this exciting tale. He seems to know without being told to sense situations, to really feel the part he plays.

## Two-Mile Plunge

For science, a thrill and a little money, Ralph S. Douglas, parachute jumper of San Diego, Cal., plans to leap from an airplane traveling 100 miles an hour at an altitude of 15,000 feet. Douglas hopes to be able to drop 10,000 feet before pulling the string to open the parachute.

business has been steadily growing, the largest sales being reported in October when 41 machines were sold. The manufacturer of the Eureka sweeper are now producing 1,500 cleaners a day. This is said to represent the largest output of any company engaged in the electric sweeper manufacturing business.

Ralph Smith, who has charge of the radio department, is a trained radio operator, having been employed on ocean-going liners for several years. He will engage in the repairing and servicing of radio sets.

Miffed Solons Walk Out.

When Deputy Bard ambitiously suggested during a recent session of the Chamber of Deputies of Buenos Aires, Argentina, that all members be kept there by the police until all the business of the day was concluded he did not reckon with the Latin mind. Instantly there was a general uprising on the part of those who considered that their personal dignity had suffered an affront, and within a few seconds the Chamber was without a quorum. The Chamber was closed a week while the ruffled feelings of the members were being smoothed.

Milton Proved Right. Visitors at Vallombrosa this fall have no doubt now that Milton was right when he wrote the lines about "thick as the leaves in Vallombrosa." The leaves have been falling thicker

than ever because of tempests in the Apennines. Around the ancient abbey which the lines of Paradise Lost made famous, the chestnuts, first and beeches which shade the valley, have been falling victims to the wind. On

his trip to Italy as a young man Milton heard of the valley and perhaps visited it.

### MEIGHAN WINS NEW LAURELS

"We're All Gamblers" Scores on Screen at Ceramic.

We're All Gamblers' Thomas Meighan's new Paramount picture directed by James Cruze, opened last night at the Ceramic theatre to a succession of laughs, applause and awed silences.

Life's ups and downs in a big city and the thread of a love which weaves it together and makes it worth while are vividly portrayed in this new Meighan offering.

The story is different and gripping. It was originally a stage play "Lucky Sam McCarver" by Sidney Howard, but it has been developed and made stronger for the screen by Hope Loring. James Cruze, maker of "The Covered Wagon" and "Old Ironsides" has done a splendid job of direction.

It moves. From start to finish comes a succession of surprises. A strong comedy vein is furnished by redheaded, freckle-faced Spec O'Donnell while Gunboat Smith deserves full credit for all the laughs he injects. Marietta Millner, leading woman, is the brunette beauty brought

### FILIPINO MEN DRAWN TO U. S. BY HIGH WAGES

Hawaii and West Coast Get Young Islanders.

NUMBER GROWING Sugar Growers Try to Stop Exodus of Workers.

MANILA.—The stream of Filipino laborers to the sugar cane fields of Hawaii threatens to become a general exodus, with the establishment of a steamship line plying between Manila and Honolulu, for the sole purpose of transporting laborers back and forth.

Years ago, when the Hawaiian planters were prohibited from importing Chinese and Japanese labor, they tried out some Filipinos, and now there are between 10,000 and 50,000 Filipinos in Hawaii. Most of them came from the Ilocos provinces in Northern Luzon, and in some towns almost all the young men have left to seek their fortune across the seas.

Wages to Low. Sugar growers of the Philippines are trying to stop this drain of manpower, but the \$1.25 weekly wage of the laborer on the Philippine sugar plantations presents a powerful contrast to the \$1 a day minimum wage in Hawaii, with most of the laborers making from \$1.50 to \$2.50 and living conditions incomparably better.

The argument for Hawaii offered by the 1,000,000 monthly sent back by Filipino laborers in Hawaii to their relatives in the Philippines presents a constant practical appeal.

Exodus to U. S. From Hawaii the Filipino labor exodus is now rapidly spreading to the continental United States. Every boat to San Francisco and Seattle carries between 200 and 400 ambitious young Filipinos. Formerly most of them stopped in Hawaii. Now in increasing number they embark on the mainland.

Word reaching Manila is that labor unions are looking askance at this influx of Filipinos to the West Coast, but unless the Philippines are made independent and its inhabitants excluded from the United States under the

from Vienna several months ago by Paramount. This is her second American picture. After seeing her we venture the prediction that there'll be many more of them. She's a comer.

Rarely in his career has Meighan been called upon for such a variety of performances. They range from comedy to tragedy. Through it all he seems to be actually living the part.

In fact, in spite of the series of successes this star has turned out over a period years, we have no hesitation in calling "We're All Gamblers" one of his best.

### Is Your Dog Telepathic?

The dog who knows when his absent master is returning home and goes to meet him at a certain hour is common enough, but in England one dog goes to the railway station to meet his master who returns home at almost any hour of the afternoon or evening. Major Harding Cox, an expert on the habits of dogs, says that is done by telepathy, declaring that some dogs have a "wireless" connection with the brains of their masters.
